FRESNO, CALIFORNIA, U. S. A.

GLADIOLUS

(Above photo taken in our test grounds)

I have been deeply interested in the improvement of gladiolus for many years. Hybridizations are made by the thousands yearly to improve this flower. I can supply any of the following colors: Rose pink, deep pink, salmon, white, scarlet, chamois, begonia rose, orchid, orange, yellow, shrimp pink, cream, spectrum red, apricot, and flesh pink. Large size bulbs at 50c per dozen; \$1.50 per 50; \$2.00 per 100. Picardy and Mammoth White at \$4.00 per 100.

Rain Lilies

Zephranthes Grandiflora Rosea—Fairy lily. A very lovely summer flowering bulb. Produces from May until October an abundance of large rose-pink flowers about 3 inches in diameter on stems 12 inches long. Unexcelled for cutting. 75c per doz.

Zephranthes Alba—A pure white variety of the above. 75c per dozen.

Zinzibar officinale "Wild Ginger"—Grows to 5-6 feet high. Flowers very large to 4 inches in diameter. Pure white very fragrant. Grow in sun for best results. Fall flowering. 75c each.

Unusual Iris "Brown Eyes"

Morea Bicolor—Evergreen, grasslike foliage grows to height of 3 feet. Blooms almost entire year. 3 inch cream-yellow flowers (resembles iris) conspicuously marked with three dark brown eyes. Unusually beautiful and valuable as a cut flower. 50c each.

Giant Hybrid Torch Lilies

Tritoma—Beautiful evergreen grass-like foliage. Stems 3-4 feet long, producing flowers for months throughout the summer. Splendid for cutting purposes. Easily grown. Plant in groups of three for immediate effect. Plant in sun or partial shade. I offer 4 colors: Burbank's "Tower of Gold," coral, chrome, orange and yellow. 50c each; \$3.50 per 10.

The above Tritomas represent some 12 years of labor and hybridization and are among the largest and most beautiful ever grown.

Anchusa mysotidiflora—A very hardy and easily grown perennial. Produces masses of richest forget-me-not blue flowers on a vigorous plant about 18 inches tall. Very charming for cut flower purposes blooming over a long season. Foliage heart shaped and attractive even when not in bloom. 25c each.

TO MY FRIENDS AND PATRONS:

In presenting this catalog, I wish to thank my customers for their continued patronage and appreciation of my efforts. You may be assured that at all times the same high quality of the past will be maintained.

LANDSCAPING DEPARTMENT

We are well equipped to handle all branches of this service. Bring or write your planting problems to us for suggestions.

TERMS

Cash with orders or in advance of shipment. U. S. Postage stamps accepted for amounts under \$1.00 only. Prices include delivery charges prepaid anywhere in the U. S. except where noted. No plant orders accepted for less than \$1.00.

SALES TAX

California customers please include 3% extra for California State Sales tax

GUARANTEE

I exercise every care to ship only first class stock and will at all times endeavor to satisfy my customers in every way.

WM. H. HENDERSON

New Cannas

Burbank's "Fire Canna." One of the largest flowered cannas in existence. Constantly in bloom. Never fails to attract attention of visitors to my gardens. Finest variety for massing purposes. Enormous clusters of bright fire-red blossoms. 4 feet high, 25c each; 3 for 60c; 12 for \$1.50. Prices on quantities on request. I offer 3 new varieties of cannas. Deep Gamboge Yellow, (4 feet) 25c each; \$1.50 per dozen. Apricot Orange (3½ feet) 25c each; \$1.50 per dozen. Deep Scarlet-Bronze Foliage (4 feet) 25c each; \$1.50 per dozen.

New Crinum "Royal White"

The largest flowered variety ever grown. Blooms 7 inches across and produced on stems 30 inches long. The pure white petals are marked with a distinct soft rose pink stripe the entire length of the petals. Very fragrant. Individual petals are over 1 inch wide. Offsets only \$2.50 each.

Rosa Hugonis
(See Above Photo)

Golden shrub rose of China. The long graceful branches with fern-like leaves are covered in early spring with wreaths of fragrant yellow flowers. Plant as a shrub for color effect. Grows 4-5 feet high. Strong plants, \$1.00 each. Medium sized plants 75c.

Rosa Bicolor—A shrub growing 4-5 feet high. Blooms from early spring to summer. Flowers are single 2½-3 inches across and are the richest coppery scarlet I have ever seen in any flower. A cluster of golden stamens enhances the beauty. Reverse of petals are gold. Strong plants \$1.00 each.

Crinum "White Queen"
(See Above Photo)

This beautiful variety was produced by crossing tropical species with an American native plant. Each plant bears many stems that carry large clusters of 25 or more flowers that are 5 inches in diameter. Very fragrant, and increase in size and beauty each season. Plant in full sun or partial shade. Large bulbs. Each \$3.00; offsets \$1.00 each. Bulbs when full grown frequently weigh from 8 to 15 pounds each.

PERUVIAN DAFFODIL

(See Above Photo)

Bulbous plant, producing for many months throughout the summer flowers resembling Amaryllis. Very sweet scented, and splendid for cutting purposes. Stems 18 inches long. Flowers are white in color, and are excellent keepers. Plant almost evergreen. 25c each; \$1.50 per dozen. Not less than 12 at this rate. Prepaid. Blooms from *June to October*. Proving very popular.

Rosa Xanthina—A semi-double bright yellow flowered shrub rose. Height to 6 feet. Very handsome and very worthy of trial by gardeners who desire masses of color. \$1.00 each. Strong plants.

NEW TIGRIDIA HYBRIDS

Mexican Shell Flower—Gorgeous large flowers 6-8" across produced on gladiolus-like stems. Blooming season most of the summer. Easily grown in partial shade or full sun. Requires good drainage.

Rare Colors:

- Pure white— @ \$2.00 per dozen.
- Wine red— @ \$2.00 per dozen.
- Lavender pink— @ \$1.50 per dozen.
- Red and Yellow (old orig. var.)— @ \$1.00 per dozen.

Wonder Plant

Xerophyllum Tenax—Bear Grass. A most beautiful plant with beautiful grass-like foliage. (dark green). Has white flowers produced in racemes often 4 feet long on stems 6 feet high in early summer. Very fragrant. A plant in full bloom is an unforgettable sight. Grow in partial shade with good drainage for best results. Evergreen. Belongs to the lily family. Balled plants 12"-15" \$1.50 each. One of the world's most attractive and unusual flowering plants. Not prepaid.

Easily Grown Orchid

HARDY CHINESE ORCHIDS

Hardy in the east as far north as Washington, D. C. A most attractive bulbous plant. As easily grown as a Spanish iris or Lily of the Valley. Thriving in either shade or sun with good drainage. Flowers about 2" across. These are produced 2 to 6 on a stem 15-18" high. Flowers in late spring, and resembles in every detail (except size) a Cattleya orchid, the one so commonly sold by florists everywhere. Foliage like a miniature gladiolus in form with a white edge on either side. 50c each; \$5.00 per dozen. Alba (pure white form of above) at \$1.00 each. Very rare.

Perfect Border Plant

Nierembergia Caerulacea "Blue Cup Flower" New perennial. Will outbloom lantana. Ideal for borders growing only 5-6 inch tall with a spread of 8-10 inches. Starts blooming in mid-spring and continues until frost. At all times neat and tidy in appearance. Strain we offer is grown from cuttings and is of a uniform height and deep lavender blue in color with a yellow throat. Should be planted in sun or partial shade. Do not cultivate. 2½" pots @ 25c each. \$2.50 per dozen. Splendid for perfect borders or use in rock gardens. Not perennial where temperatures drop below 40° F.

HENDERSON'S NEW GIANT AMARYLLIS

These magnificent new creations produce some of the largest flowers known. They are seldom less than 6 inches in diameter, and frequently 14 inches. As easy to grow as Iris or Gladiolus. I especially recommend them as substitutes for tulips in warm climates as they increase in size and beauty each year. **IMPORTANT:** Do not confuse these Amaryllis with the familiar summer-blooming Amaryllis Belladonna on which the foliage dies in summer. These new creations have both foliage and flowers at the same time. Plant in full sun. Colors are white, beautifully marked and striped with crimson; ruby-red, light and dark shades of pink, scarlet and a dark velvet red. After the bulbs are established they will bloom several times a year. The largest crop of flowers is borne in spring, about the same time the Darwin tulips are in bloom. Unequalled for garden use in the West. *Plant any time.*

In form the flowers resemble gigantic lilies. For several years I have been hybridizing many varieties of this fine flower. The best obtainable stock has been secured from England, France and Germany, also the best of the Burbank strain, for this work. Several acres will be developed to this experiment during this next season. A new double-flowered form is under observation and also a yellow variety. Mixed colors, large blooming size bulbs are 75c each; \$3.00 for six; \$5.00 for 12; \$30.00 for 100. Smaller bulbs, to $\frac{3}{4}$ inch, \$20.00 per 100; will bloom in 8 months. Prices on planting stock in quantity upon request. Selected colors at \$1.00 each. Medium size bulbs, \$3.00 per 12. Prepaid.

Fragrant Showy Pink

Dianthus "Ruth Elaine"—A large single deep rose. 2 inches across with deep ruby-red eye in center. Long stems. Almost continually in bloom. Fragrance very rich and unexcelled. A splendid perennial well worth a place in your garden. 25c each; \$2.25 per dozen.

Giant Verbenias

"New Giant Red"—Oxford Verbenias. Selected form of brilliant deep red with white eye. Flowers clusters 4 inches across. Selected cuttings 60c per doz. Also Giant Pink at same price. Very best way to get the best verbenias.

Perennials

Anemone Japonica—Valuable for massing or as single specimens in the border. They grow rapidly, and are profuse bloomers gaining in strength and beauty each year. They bloom from July till the 1st of November. Height 2 to 3 feet. I offer the following colors: Semi-double white, rose, pink, and red. Admirable for cutting. These flowers are specially recommended for shaded areas. \$1.00 for 3 or \$2.50 per dozen. Do extremely well where many plants will not thrive. 35c each; hardy, long lived perennial.

Linum Flavum—A very hardy perennial producing quantities of golden yellow flowers in terminal clusters over the entire summer. 18 inches in height and evergreen. Very showy and desirable because of its long life. 50c each.

Scabiosa Perennial Hybrids—An excellent perennial for the garden. Produces large blue, lavender and white flowers on long stems. Blooms through the summer. Very hardy. Plant in full sun. Strong 1-year plants, 25c each; \$2.00 per 12. Prepaid.

Perennial Phlox—"Miss Lingard" Large panicles of pure white, foliage glossy. One of the best perennial Phlox. Resistant to red spider. Easiest of all to grow. Blooming one month earlier than most varieties and continuing till very late in season. \$2.25 per 12; 25 cents each. Prepaid.

Gerbera (Transvaal Daisies)—New Hybrids. Plant in full sun or part shade. Bloom all summer. This strain was secured from the largest collection of Gerberas in the world. Colors include coral, scarlet, crimson, cream, yellow and many other combinations. Two sizes of plants; large 30c each, \$3.00 per dozen; medium \$1.50 per 12.

Papaver Olympha—An unusual new perennial poppy, forming a clump by underground runners. Flowers are semi-double and range in size from four to five inches in diameter and are a pleasing shade of apricot and orange. Stems are 2 to 2½ feet long. Splendid cut flower. 25c each; \$2.00 per 12.

Statice Latifolia—"Blue Babies Breath" Fine perennial increasing in beauty each year. When in bloom resembles "Baby Breath" except in color that is an exquisite sky blue. Used very successfully in dried winter bouquets. Will keep for years. Large 2 year plants ready for immediate bloom, 50c each; \$3.50 per dozen.

Dianthus Splendens—An attractive scarlet variety with white centers and edges of petals bordered with white. Large flowers about 1½ to 2 inches in diameter. Grows to 15 inches high. In bloom all summer. Large plants in quart cans at 15c each; \$1.50 per dozen.

Plumbago Larpentae—Splendid border or rock garden plant with sparkling deep blue flowers. Bloom from May till frost. Dwarf spreading habit. Height 8-10 inches. One of the finest, hardiest and most beautiful border plants in the country. Plant in full sun for best results. 25c each, \$2.00 per dozen. Perennial.

Henderson's New Pyrethrum Hybrids or Painted Daisies—Produce showy flowers of all shades, except blue and yellow, on long stems. Bloom all summer. Very valuable for cutting. Double and semi-double mixed. \$1.50 per dozen. Hardy perennials.

Pentstemon

(See Above Photo)

Wm. H. Henderson's Hybrid. Evergreen perennial almost continuously in bloom. Rivals petunias in production of blossoms. Makes bold clumps 18-30 inches in height. Flowers about 2 inches in diameter and resemble fox-gloves. Unusually free from diseases and easily grown. Recommended as a substitute for snap-dragons as it is never troubled with rust. I offer varieties selected from thousands of hybrids: Scarlet Bedder, a soft rose scarlet, 15c each; \$1.50 per dozen. Mixed, Lavender, lavender-Blue, 25c each. The above varieties are grown from selected rooted cuttings. A well-established bed of these will thrive for years with no special attention needed.

Hardy Perennial Cobalt Blue Veronica

New "Blue Spire" Veronica—Hardy herbaceous perennial producing beautiful spikes of cobalt blue flowers over the entire summer season. Very hardy and easily grown. Thriving for years with little or no attention. One of the most effective of all perennials in the border. Height 30 to 36 inches. (Sensational) 35 cents each. 3 for 75 cents \$2.50 per dozen. Prepaid.

Evergreen Ground Cover Flowering

Hellanthemums—Sun Roses. Low spreading evergreen that are practically covered with dainty flowers from spring to fall. Hardy long-lived and easily grown plants. Excellent for sunny rockwork, front of borders, sides or tops of walls. I offer three colors: Double red, apricot and rich orange. 35c each, 3 for 90c; \$3.00 per dozen.

WM. H. HENDERSON'S NEW HYBRID ORCHID FLOWERING DAHLIAS

These are the most graceful of all dahlias for cutting purposes. Height 24-36 inches. All colors, from fawn, to vermillion and scarlet and yellow. Many spotted and tigered crimson on the reverse side of petals. The tip of each is rolled or quilled. Flowers are single and range from 3-5 inches across. A bed of these gives the appearance of giant columbine or lilies. Bulbs or rooted cuttings in spring 50c each, \$3.50 per dozen. Fine cut flowers, as they are good keepers. Last fully as long when cut as the pompom types and possesses the advantages of long stems, hence they are easier to arrange. Destined to become very popular when better known. Prepaid.

EVERGREEN FLOWERING PERENNIALS

New Evergreen Spring Flowering Phlox

Phlox Divaricata Lapham—Perennial phlox of pure gentian blue growing about 12 inches high. Unsurpassed as a spring flowering border plant as it blooms from May until July. No other garden flower blooming at this season shows this rare and lovely color. A remarkably hardy, easily grown and showy plant. 50c each; \$3.00 per dozen. Evergreen. Smaller sized plants \$1.50 per dozen or 25c each.

Phlox Subulata Brittoni—Very distinct from any variety known. It forms a cushion like plant with closer growth than most subulata varieties. Abundance of white star-like flowers with darker centers formed by a ring of bright blue dots. New form 50c each, \$3.00 per dozen.

Phlox Subulata Vivid—Similar to above except that it possesses a vivid satin pink flower with red centers. One of the most beautiful dwarf shrubs for rock gardens. Blooming in earliest spring almost covering itself with blossoms. 50c each; \$3.00 per dozen; smaller at 25c each; \$1.50 per dozen.

Gentiana acaulis—A dwarf evergreen perennial requires peat and sand and partial shade. Producing large 2 inch trumpet shaped flowers of deep blue. No cultivation required. Needs good drainage. 3 inch pot, 50 cents.

Gypsophila "Bristol Fairy"—A splendid double flowered "Babies Breath". The effect is far superior to the old single type when used in bouquets and the blooms last much longer when cut. Grafted plants at 50c each.

Clematis for the Perennial Border

Clematis Davidiana—Hardy herbaceous perennial producing clusters of very fragrant gentian blue flowers over the summer months. Height 3 feet. Grows upright like a shrub. An exceedingly fine perennial. Strong 2 year roots. \$1.00 each. Prepaid.

Clematis Recta Grand Fl. Pleno—A very attractive new herbaceous perennial growing to 3 feet high. Produces masses of double pure white flowers throughout the summer months. Very fragrant. Planted in full sun in perennial border it is most effective. \$1.00 each.

A NEW EVERGREEN WISTERIA

Millettia Japonica (Formosa Wisteria)—A splendid evergreen flowering vine producing throughout the entire summer, long clusters of deep purple Wisteria-like flowers. Strong rootings \$1.50 each.

Michaelmas Daisies

Charming (Burbank's)—Soft shade of pink with yellow center. Graceful weeping branches. 4 feet high, resembles small spires shrub when in bloom. 50c each; \$3 per doz.

Baby Blue—(Henderson's) When massed in front of dark green shrubbery it appears similar to a soft blue cloud. Visitors are enthusiastic over its heavenly blue color. Try the effect in your garden. You too will be greatly pleased. 50c each; \$3.00 per doz.

Lavender Queen—(Henderson's). Richest lavender with orange center that sets whole flower aglow. Blossoms 2 inches in diameter. All above varieties, 50c each; \$3.00 per doz.

Aster Frickarti—A perennial aster producing 2-inch blooms on bright lavender blue throughout the entire summer. Height 30 inches. The finest of all Michaelmas daisies to date. 50c each.

Delphinium—New dwarf blue bedding variety. Producing little upright bushes about 15 inches high covered all summer with true azure blue flowers, 50c each; \$2.50 per 12. Hardy perennial.

Delphinium—"New True Blue". A selected hardy form of Belladonna type producing spikes 4 feet high of a deep true blue. Magnificent new form. 50c each.

Dianthus Beatrice—A new variety of this popular flower. It has double flesh pink flowers produced in large clusters over many months. A superb new variety. Strong rooted cuttings, 25c each; \$1.50 per dozen. Best perennial Dianthus.

Columbine—Wm. H. Henderson's Hybrids. A great improvement over older types. Larger flowers and longer spurs. Colors include yellow, orange, red, rose, blue, purple, cerise, white, salmon and mauve. Seed 20c pkt; 3 for 50c. Roots, \$1.50 per doz. All weak colors have been eliminated.

Columbine "Crimson Star"—Very large flowers with long spurs. Outer petals deep crimson with central petals of white. Very attractive new variety. Grows to 3 feet. Strong 1 year plants at \$2.00 per dozen or 25c each.

New Geums—"Princess Juliana" extremely large flowers of copper yellow. Far superior to any seed grown varieties. 25c each; \$2.50 per dozen.

New Geum—"Fire Opal" very large flowered red overlaid copper. Both of these varieties are grown from root divisions of the original plant. 50c each; \$5.00 per dozen. Prepaid.

Salvia Pitcheria—Splendid perennial. Growing 4 ft. high, blooming from August until frost and producing masses of **pure gentian blue** flowers. One of the most beautiful perennials in existence. Unsurpassed for long full blooming season creating masses of blue for months. 50c each; \$3.00 per dozen.

Iberis sempervirens—Evergreen candy-tuft. Forming a small shrub to 12 inches high. Foliage rich glossy dark green. Plant completely covered with pure white flowers in very early spring. Ideal for the rock garden or used as a border. In summer as neat as a boxwood in appearance. 25 cents each. Prepaid.

Dianthus Knappi—A very rare evergreen. Yellow flowered variety. Very beautiful. 50c each.

New Chrysanthemums

(See Above Photo)

"Gabriel's Trumpet" (McCre) — Unusually fine single hardy garden mum. Petals tubular expanding near tip to a soft shade of Chinese scarlet from a silver buff. One of the most unusual mums ever introduced. 50c each; \$3.00 per dozen.

Mrs. J. Willis Martin—Crushed strawberry color. Early and very popular variety.

Margaret Waite—Finest variety for late blooming. Withstands rain and frost well. Stems may be cut 24-30 inches long. Color deep sparkling rose pink. Semi-double. Has no equal for lasting quality and cutting. Possesses rich, spicy fragrance.

Ira K. Skiff—Golden bronze, large semi-double and very early. Attracts attention in any garden.

Dream—New pom-pom. Very double perfect flowers, bright clear rose-pink in color. Very graceful in the garden.

Indian Chief—New clear scarlet. Reverse of petals old gold. Wonderful new color combination.

25c each, \$1.50 per dozen on all above varieties of chrysanthemums.

New Everblooming Chrysanthemum—Unlike the regular chrysanthemum type that blooms only once yearly, this produces a full crop of flowers in the late spring, and also a second crop in the fall. Flowers about 3 inches in diameter. Color rose pink, on stems 18 inches long. 50c each; \$2.50 per 12.

New "Princeton" Chrysanthemum—Splendid upright grower with foliage that turns a glorious red and bronze color in the fall. Color of flowers is unusual and very new; a rich calendula orange. Flowers 2½ inches across; very double on perfect stems. A splendid addition to hardy chrysanthemum groups. 50c each; \$2.50 per dozen.

Campanula porcharkyana—A beautiful evergreen trailing variety blooming most of the summer. Violet blue star shaped blossoms. A well established plant of this in the rockery presents a mass of color indescribably beautiful. 2½ inch pot, 25 cents. Prepaid.

Once you have tried the new Geums Fire Opal and Princess Juliana you will not want the older varieties.

Rare Hybrid Clematis

(See Above Photo)

Among the world's finest flowering vines. Produces very large, attractive flowers from May to the November frosts. Very hardy; withstanding temperatures with perfect safety to 10 below zero. Will grow equally as well in part shade as in full sun. Flowers long lasting and useful for bouquets. No cultivation needed. Need plenty of water and good drainage. Acid soils not recommended. These are excellent for a very long season of bloom (surpassing even the hybrid tea roses in this respect). All plants offered will bloom well first year planted.

New Imported Hybrid Clematis

These flowering vines are creating such an interest among gardeners that we have imported from England the finest varieties available in that country. They are now available for distribution.

NOTE—Aside from their value as flowering vines for general garden use, clematis make beautiful pot plants when grown in large pots or tubs. We cannot recommend a more beautiful and long blooming vine for gardens generally throughout the United States.

Dutchess of Albany—A beautiful bright pink Jackmani X coccinea hybrid. Vigorous and the best of all pink varieties. \$1.00 each. Prepaid.

Lord Neville—A very large flower of deepest plum purple almost royal purple. Easily the best of Jackmani hybrids of deeper shades. \$2.00 each.

NEW PHLOX

"Nivalis Sylvestris"—A new phlox similar to phlox subulata in general appearance. Dense mossy green foliage completely covered with remarkably large rosy red flowers the size of half a dollar. Strong grower. Very hardy. 3 inch pots @ 60c each.

CLEMATIS DUCHESS OF EDINBURGH (See Below)

Clematis Ramona—Deep sky blue flowers. Unusually large 9-10 inches across. Vigorous habit and free flowering. \$1.00 each.

Clematis Jackmani—Large flowers 5-6" across. Petals very broad. Velvety purple. 75c each.

Clematis Henryi—Robust plant, free bloomer. White. Flowers to 8 inches in diameter 75c each.

Clematis Dutchess of Edinburgh—Beautiful double white. Petals attractive arranged and imbricated. 75c each.

Clematis Mme. Edouard Andre—A deep crimson; flowers 5-6 inches in diameter. 75c each.

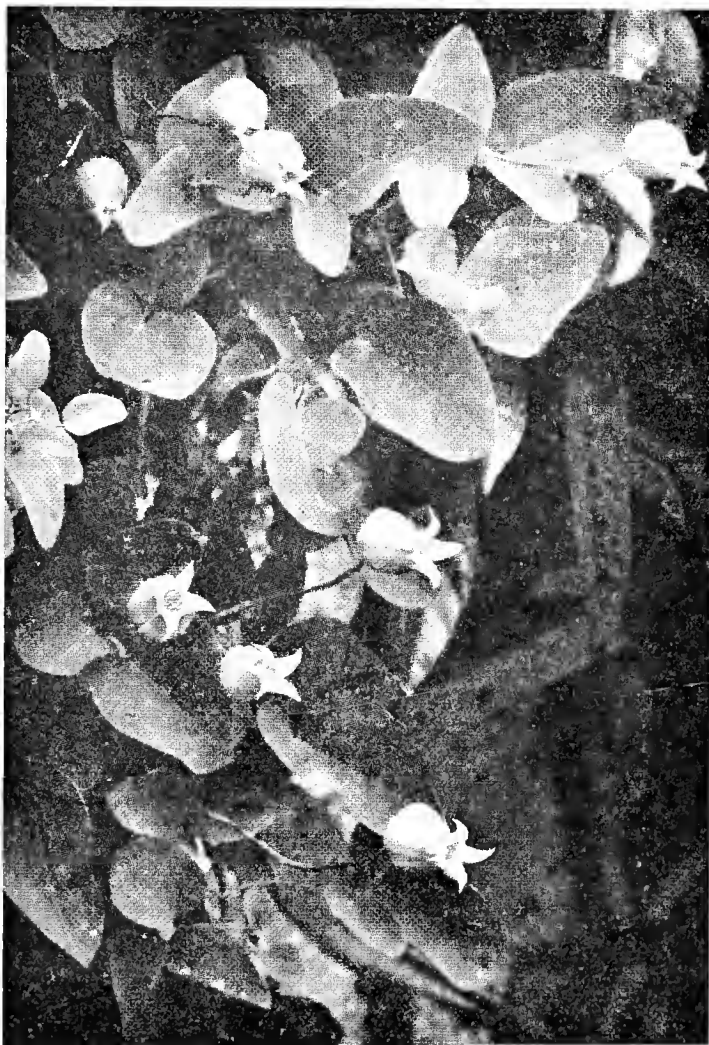

Clematis Mm. Baron Veillard—Extra vigorous type. Free bloomer. Very large light rose flowers. 75c each.

Clematis Species

Clematis paniculata—Japanese flowering clematis. When in bloom in the fall the vine is completely covered with white very fragrant flowers. Racemes of blooms often 5 feet long. A very fast growing hardy vine. 2 year \$1.00. Prepaid.

Clematis montana rubens—A rapid growing vine to 20 feet. Flowers produced in masses in early spring. 2 to 3 inches in diameter. Pink in color. Beautiful spring flowering vine. 75 cents each.

Clematis tangutica (Golden Clematis)—A very beautiful fast growing vine producing golden yellow flowers in late summer and fall. 75 cents. Prepaid.

Clematis Coccinea

(See Above Photo)

A very hardy rapid growing herbaceous vine to 20 feet. Blooms throughout the entire summer. Flowers are urn shaped; about 1 inch in diameter and 2 inches long of brightest vermillion. Inside of flower is intense golden shade. One of the most graceful and attractive flowering vines I have ever seen. Must be planted in sun for best results. Strong roots. 75c each.

NEW EVERGREEN CLEMATIS

Clematis Armandii grandiflora—Evergreen climber very vigorous. Producing its large 2 inch blooms of pure waxy white in such profusion as to almost completely cover the plant. Foliage glossy dark green frequently with leaves 6 to 8 inches in length. Flowers very fragrant. Certainly the most beautiful evergreen flowering vine in existence. Destined to a popularity beyond comprehension when better known. Flowers in early spring. Large plants \$2.50 each. Smaller size \$1.50 each.

FLOWERING VINES

Confederate Jasmine—Star-shaped flower; pure white—very fragrant. Foliage thick and glossy. Evergreen vine blooming most of the summer. Gallon cans, 75c.

Bignonia Violacea—Evergreen Trumpet vine flowers large, orchid, pink, yellow center. Foliage glossy. One of the most beautiful flowering vines. 75c each.

Aristolochia—Dutchman's Pipe—a tall high, climbing hardy vine, widely cultivated for its fine foliage. Leaves roundish or kidney shaped. 6 to 14 inches wide. Flowers are yellowish brown shaped like a pipe. Good for quickly covering unsightly objects with great speed. 50c each.

Thunbergia gibsoni—Beautiful climbing or trailing vine blooming through entire summer. Produces large flowers to 1½ inches across of the most vivid orange of all flowers known. 50 cents each. Prepaid. Not hardy below 28 degrees.

"Climbing Cineraria"

New Climbing Senecio—A tender rapid growing vine blooming throughout summer into fall. Flowers about 2½ inches across of brilliant copper scarlet, daisy like in form. One of the most beautiful flowering vines known and should be in every garden. Produces large clusters of bloom. Plant in full sun. Protect from frost. \$1.00 each. Prepaid. Ready in April.

A New Bignonia Grandiflora

(See Above Photo)

A very rare giant flowering trumpet vine bearing many apricot pink and orange flowers that are from 3-4 inches in diameter. Flower are borne in immense clusters and will average over 100 to a single cluster. Quick grower. Hardy anywhere. Strong grafted plants ready from December to April 1st. In bloom all summer. 2 year grafts, \$1.50.

Jasminum stephanense—An extremely rapid growing vine producing quantities of lavender pink very fragrant flowers. One of the most rapid growing of all vines and highly desirable for quickly covering trellises or unsightly objects. 50 cents each.

Hydrangea petiolaris—Climbing Hydrangea. Attractive self clinging vine. Flat loose clusters of fragrant white flowers averaging 5 inches across. Good on stone or brick walls. 75 cents. Prepaid.

Wisteria—Double violet blue. Grafted vines of the best varieties of Wisteria. The double variety is especially recommended for the longer lasting qualities of the blooms. 2 year grafted \$1.75. Also single purple and single pink flowering varieties. Prepaid.

Mandevilla (Chilean Jasmine)—A handsome summer flowering vine with large 2-inch blossoms of pure waxy white. Intense asmine fragrance. Foliage large and very attractive. Highly recommended. \$1.00 each.

Polygonum auberti (Silver Fleece Vine)—A strong growing fall flowering vine, producing perfect masses of white flowers that are quite fragrant. Easily grown and disease free. 75c each.

New Hollyhock—(W. H. Henderson's Double Apricot Shades)—Large flowers up to 6 inches in diameter exquisitely blended shades of apricot orange on graceful stems 4-6 ft. long. Edges of petals lacinated and ruffled making a marvelous transformation of this popular flower. Seed 25c pkt. One year roots, \$1.50 per dozen; 25c each.

Fall Blooming Tree

Cassia Splendida—A fall blooming small tree growing to 10 feet. Hardy in climates as low as 10° above zero. Very large flowers of a beautiful golden yellow produced in masses. One of the very few fall flowering trees. Plant in full sun for best results. Gal. cans @ \$1.00 each.

W. H. HENDERSON'S GIANT ZINNIAS

(Illustrated Above)

Wonderful rich color combinations never before seen in this type of zinnias. Enormous full double flowers rivaling dahlias. This strain is unique in that no two individuals are alike in color or type. Many new types are semi-cactus, crested and the new chrysanthemum flowered type. Colors including old gold, salmon, golden yellow, orange, scarlet, dark velvet, crimson, lavender, light and deep pink, with flame centers. They represent the very highest development stage of the modern zinnias. Seed offered only in mixed colors (above 150 seeds in pkt.) 50c pkt.; \$1.25 for 3 pkts. No half-packets offered.

The Zinnias described above are the result of twelve years of constant selection and crossing. Anyone who has ever seen these in bloom needs no introduction as to their superior colors and size.

W. H. Henderson's New "Fiesta"

Zinnia (Illustrated in Natural Color on Rear Cover of this Catalogue.)—Beautiful new creation. The most astonishing new variety and a distinct break in two colors. Individual flowers 1-1½" in diameter. No two flowers, even upon the same plant, are ever alike. Admirably adapted for cutting and bedding purposes. Height 18-24". Colors are vivid yellow striped, quartered and halved with scarlet and orange. Makes one of the most attractive cut flowers because of the individuality of each blossom. 50 cents per package.

W. H. Henderson's New Gypsy Zinnia—

A most unusual new and distinct type of Baby Zinnia. Flowers are double and semi-double about 1 inch in diameter. Colors included are mahogany red, ruby red, copper and crimson zoned and tipped yellow and white. Admirable for bedding purposes as plants possess an entirely different range of colors and are not comparable to any other class. 50c per packet.

Henderson's Baby Zinnias—Plants low and compact rarely exceeding 2 ft. in height. Excellent for bedding purposes. Flowers are small and produced in great profusion on long stems well above foliage. Make gorgeous display in the garden. More delicate and graceful for small bouquets than other zinnias. Mixed colors only 25c pkt.

Convolvulus Minor—A beautiful dwarf bush type of morning glory seldom exceeding 15 inches in height. Flowers of deep gentian blue with contrasting white center. 25c packet.

New Hollyhock—Orange Prince—Very pleasing. Flowers are large and durable. Color deep orange. Strong plants 25c each.

New Hollyhock—Golden Giant—Very large durable flowers of pure yellow. Tall and vigorous. Very striking. Plants 25c each. Seeds 25c packet.

Burbank's Crimson Morning Glory—Beautiful large blossoms of bright crimson. Very prolific bloomer. 25c packet.

Marigold "Dixie Sunshine"—A late blooming tall growing annual. Flowers 2 inches in diameter. Very durable. Resembling a formal mum. Color pure gold yellow. 15c packet.

Burbank's Amaranthus "Molten Fire"—An easily grown annual growing to height of 4 feet. Foliage striking deep maroon developing centers of vivid fire red. Sow after danger of frost. 25c packet.

Scabiosa "Blue Cockade"—Splendid new biennial from England. Very large flowers of an exquisite shade of azure blue. Blooms entire summer. Long stems. Excellent keepers. Seeds, 25c packet.

Mexican Sunflower—A rare annual from Mexico. Many stout stems grow from the base with large leaves. The flowers are large and remind one of an immense single dazzling scarlet zinnia. Blooms for a long period and is especially desirable for planting in front of tall shrubs or in the background of wide borders. 25c per packet.

I have been testing and improving Zinnias for seventeen years and the above types represent the finest I have ever grown. They above strains have been acclaimed by experts as the finest in commerce today.

SEEDS

"Orange Flare" Cosmos—Splendid new annual. Blooms in 90 days from seed. Flowers $2\frac{1}{2}$ inches in diameter, and of a bright orange shade. 15c pkt. Three for 35c.

Perennial Pea—Burbank strain. This variety is not surpassed in abundance, size flowers, length of stem, or variety of colors. 25c per packet.

New Yellow Hibiscus—Annual. Produces very large canary yellow flowers with maroon centers. Blooms five to six inches across. Very beautiful and has long blooming season. 25c per pkt.

Mexican Tulip Poppy—Perennial. Blooms from May until frost. Canary yellow tulip-shaped flowers with fluted edges. Flowers keep a week even when cut in mid-summer. Height thirty inches. 25c per packet.

Scabiosa Fisherii—Splendid new species from Manchuria. Large deep purplish blue flowers. Much richer color than any other perennial type. Grows to $3\frac{1}{2}$ feet. Admirable for cutting purposes. 25c pkt.

Dwarf Phlox—Annual of easiest culture. Do not transplant. Height 24 inches. Beautiful variety of colors. Very effective in masses. 25c packet.

Lawn Substitute

Thymus coccineus (Crimson Thyme)—Dense evergreen carpet completely covered in Spring with crimson flowers, making a solid mat of red. Makes a beautiful edging plant. Gaining in favor as a lawn substitute. Does not require mowing. Crowds out obnoxious weeds. Plant 12 to 18 inches apart each way. 15 cents each; 12 for \$1.50; \$8.50 per 100. White flowered form at same price. Does not require much watering. Prepaid.

Evergreen Rock Garden Plants

Ceanothus prostratus—A new broad leaf evergreen for the garden. Low and trailing, leaves resemble small holly and could easily be mistaken for a creeping holly. Covers ground with solid mat, trailing beautifully among and over stones. Thrives in hot dry and exposed situations. Covered in spring with bright blue flowers which have tiny points of gold. One of the worlds most beautiful trailing plants. Plants at 35c. Prepaid.

Genista tinctoria flora plena—Low growing, height, 5 inches and spreading 2 to 3 feet. Extremely colorful in bloom, the foliage being hidden entirely by clustered golden yellow flower heads standing 2 to 3 inches above plant. The most profuse bloomer of all brooms. 4 to 6 inches at 50 cents. Prepaid.

New Coronilla Cappadocia—Evergreen perennial growing to height of 10 inches. Flowers produced in racemes of richest golden yellow. Very showy and one of the finest rock garden plants known. Early spring bloomer. 50c each.

DAVIDIA INVOLUCRATA—"THE DOVE TREE"

(China) (Illustrated above)

One of the world's most beautiful flowering trees. A very rare, handsome tree with large, attractive bright green foliage of pyramidal habit. An object of striking beauty when studded with the very large creamy white flowers. Floral petals seven to eight inches long and four to five inches broad. The flowers are pendulous on fairly long stalks and when stirred by the slightest breeze they resemble huge butterflies or small doves hovering among the trees. The most interesting and most beautiful of all trees. Perfectly hardy where temperature does not fall below zero. Requires good drainage. No cultivation. Price upon application.

Photo reproduced from E. H. Wilson's book "Aristocrats of the Garden" through courtesy of the Stamford Press.

Rare Flowering Maple Shrub

New "Double Flowering Maple"—One of the finest and most unique of this family. Producing 2 inch flowers with back petals of soft yellow, center is composed of many vivid orange petals like a pompom Dahlia. Very striking and the most unique variety of this upright ever-blooming shrub. Ready in April. 3 inch pots. \$1.00 each. Prepaid.

New Blue Hibiscus

A new and very hardy (throughout entire United States) Hibiscus. Flowers are of a beautiful lavender blue 3-4" across produced freely from June until October. A flowering shrub of most unusual quality and beauty growing to 8 feet high. 24-30" @ \$2.00 each. 12" @ \$1.00 each.

New Red Buddleia

"Dubonnet" Butterfly Bush. Color an exact counterpart of the popular French shade "Dubonnet". In sunshine and under artificial light it glows almost a true red. Firm cylindrical spikes, heavily set with individual flowers of good size that do not sunburn. Plant of robust erect growth. An excellent cut flower harmonizing well with other outdoor flowers. Flowering from May until October. Ready about April 15th. Advise early orders before stock is exhausted. 3" pot plants @ \$2.00 each prepaid. One of the finest plants ever introduced. Grows to 6 feet high.

Rhododendron

Rhododendron Hybrids—Start a fine collection of this beautiful flower. Strong 3 year old stock. 50 cents each, prepaid. Mixed colors.

Rare Belgium Hybrid Azaleas

Azalea "Albert Ellizabeth" A new Belgium Hybrid azalea. Large flowers to 3" across of pure white bordered on each petal with pure rose pink. Very outstanding variety. 4" pots @ \$1.50 each prepaid.

Azalea "Paul Schaume" A gorgeous salmon shade with double flowers 3" across. Produces very freely. Most beautiful new variety. 4" pot @ \$1.00.

Azalea "Prof. Walters." Large 3-4" single white, feathered red at tips of petals and a feathered red throat. Very popular and fine variety. 4" pot @ \$1.00.

Cytissus Andreanus "Paradise Broom"—A gorgeous richly colored broom. Blood-red flowers with bright yellow keel. One of the most striking shrubs ever grown. They are a sight to behold when in full bloom. 30-36" balled plants \$1.75; 3-4 ft. balled @ \$2.25. Not prepaid.

Leucothoe Catesbaei. A charming shrub with leathery rich green foliage. Tips of branches are covered with pendant Lily-of-the-Valley-like flowers for 2 months. Foliage rich shades of red in the winter. Adapted to shady places. Grows to height of 5 feet. Balled plants 18-24" @ \$1.00. Not prepaid.

Henderson's White Dahlia

Single bloom showing form on left. Field view below showing a plant 8 months old from a rooted cutting.

Rooted cuttings are highly recommended and will give excellent blooms as quickly as tubers. At end of season bulbs will have formed for the following year's stock.

HENDERSON'S WHITE DAHLIA

This new variety, illustrated above, has proven itself to be the most beautiful, the most distinct in form and the most prolific bloomer of any dahlia. Most people seeing this wonderful dahlia, for the first time, are likely to confuse it with the largest of the Japanese chrysanthemums. Only upon close inspection of the foliage can it be distinguished. Sixty flowers were picked from one plant during the past season. None of the blooms were less than eight inches in diameter and frequently twelve; stems averaging three to five feet in length. Stems absolutely rigid. An excellent keeper surpassing the famous variety "Jersey Beauty" in that quality. Color is pure white, with a cream yellow center. Price \$1.00 each; three for \$2.50.

NEW SUPERIOR AZALEAS

Fine assortment of the famous varieties that make Mobile, Alabama the azalea city of the United States. Perfectly hardy and evergreen where temperatures do not fall below 10 degrees above zero. All varieties are 12-18 inches in height and are \$1.50 each. Not prepaid.

Azalea Indica Rosea—Fast growing producing large single white flowers tinted rose.
Azalea Pink Pearl—Large size flowers. Very beautiful salmon-rose color. Very fine variety.

Azalea Pride of Mobile—Large watermelon pink flowers of brilliant hue. Fine variety and profuse bloomer.

Azalea Salmon—Daphne salmon. Medium sized flowers. Fine variety.

Azalea Violacea Rubra—Deep wine red flowers with dark green leaves.

Azalea Vitata Fortunei—Fast grower. White and variegated light lavender. These are intermingled on some of the plants. Prolific bloomer.

Azalea Wm. Bull—Hardy upright grower. Double orange red flowers. Lasting in bloom over a long season.

Azalea Criterion—Compact grower. Color of strawberry ice cream streaked with deep pink and with margin of white. Late bloomer and unusually attractive. 12-18" in height.

DAHLIAS

NEW VARIETIES

Garden of the Sun—Enormous, formal, decorative. Stems rigid, pure vivid golden yellow. Rooted cuttings only. \$1.50 each. Height 4 feet.

"Little Jewel"—A miniature decorative, of flesh pink. One of the most beautiful of all small dahlias. Highly effective for bouquets. Without doubt the most exquisite of all pink dahlias, possessing a color unique in this family. 25c each; \$2.50 per dozen.

Write for special Quotations on larger quantities of dahlias. We are well equipped to give you near wholesale prices on 25 or more bulbs.

Azalea duc de Rohan—Compact grower. Profuse bloomer of beautiful salmon colored flowers. Has small leaves.

Azalea Flag of Truce—Good sized double flowers having ruffled edges. Compact grower. 12-18 inches.

Azalea Formosa—Very fast grower. Has dark green leaves and large deep lavender flowers. 12-18 inches.

Azalea Geo. Franc.—Early bloomer with extra large flowers of salmon pink with red throat. Very showy.

Azalea Indica alba—Upright grower with large pure white flowers in mid season. Very hardy.

Burbank's Hemerocallis Calypso

Day Lily flowers averaging 5 inches across and are a glorious shade of deep lemon yellow. Grows 4 feet high. Blooms from spring to fall. Plant in full sun or partial shade. Pronounced by experts to be one of the finest of all day lilies. 50c each; \$3.00 per dozen.

Wm. H. Henderson's New "Giant Orange" Hemerocallis—Flowers are very large deep orange covered with a gold dust sheen. Flowers are of a heavy substance and petals very wide. Comparable in width of petals and size to some of the Amaryllis hybrids. \$1.50 each. Plant is 30 inches in height.

Hemerocallis Fulva Maculata—Cadmium yellow in throat with dragon's blood red in an arching band through the center of the bloom. The outer portion of the petals is veined with red. \$1.50 each. Enormous flowers.

New Hemerocallis "Margaret Perry"—Height 50 inches. Cornelian red flowers with bright yellow star at throat that continues to the tips of petals as a stripe. Plant from September to February. \$1.00 each.

Hemerocallis (Double Orange)—Height 50 inches. A beautiful double flowered day lily. Gorgeous orange colored flowers that last two days on the plant as against one of ordinary varieties. Hard to beat. 35c each; 3 for \$1.00.

Alonsoa Grandiflora—Growing to 36" high and producing over many months flowers of the most brilliant military scarlet. Very showy in beds. Neat in appearance and very well worth growing in your garden. \$1.50 per dozen; 25c each.

Veronica Hendersoni Nana—A free flowering deep blue veronica not exceeding 12" in height. Good for borders. A hardy perennial. Plants @ \$1.50 per dozen. 25c each.

NEW IVY—Geraniums "Brilliant" Bright cherry red producing flower clusters 4" across with individual flowers 1½" across. Long stemmed and very hardy-flowering entire summer. Very spectacular. 35c each.

"Tricolor" A beautiful orchid pink striped ruby red. Large individual flowers 1½" across in clusters 4" in diameter freely produced. Sometimes one plant produces a deep rose bloom. 50c each.

"GOLDEN GATE"

A new and extremely large flowered golden salmon geranium with an overlay of scarlet. Clusters up to 5" across. A greatly improved variety and the most outstanding color ever offered. \$1.00 each.

"Lacinatus"

Shasta Daisy (close view) showing petal arrangement. See photo on right showing field grown plants of this beautiful new Shasta daisy. Also see description below photo on right.

"Snow Queen"—Shasta Daisy Hybrid. Flower lovers who saw this last year were amazed at the size and abundance of bloom of this variety. Large blooms on long stems 3 feet in length. Semi-double. Individual petals very wide. 25c each, \$1.50 per dozen. A greatly improved Alaska daisy.

"Supreme"—New Shasta Hybrid. Flowers 4 inches in diameter. Possesses 14 distinct layers of petals which when fully developed make the flower 3 inches in depth. It resembles a pure white zinnia. Grows to height of 30 inches. Good bloomer and excellent cut flower. 50c each.

The above new daisies represent many years of hybridization and selection, requiring the growing of many thousands of individuals. They are superior to any offered elsewhere and will easily replace all older varieties when they are better known.

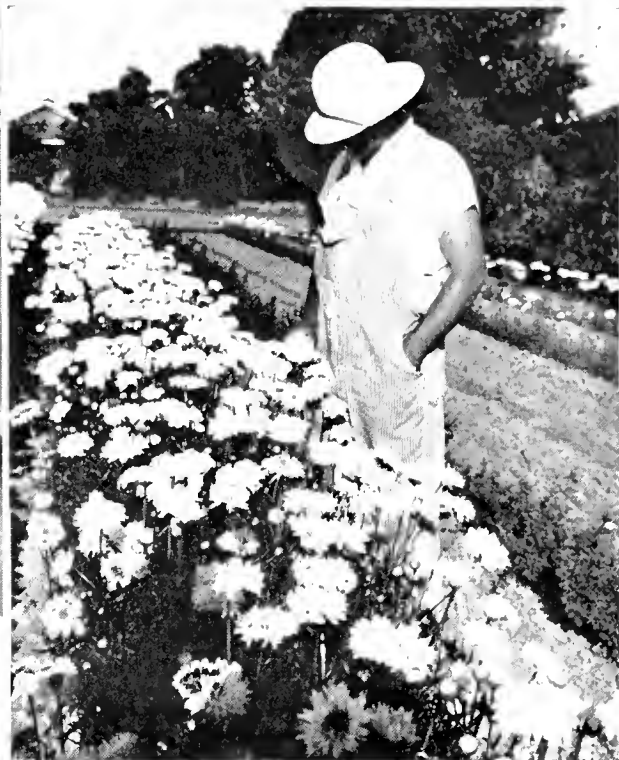

Trees with Colored Autumn Foliage

Euonymus Europaeus—(Flame Tree) small 15 feet in height. This tree colors so vividly in the fall and winter that leaves resemble poinsettia petals. In addition, it bears such an abundant crop of crimson rose pods as to almost cover the tree. Later these pods burst, showing orange colored seeds. Very hardy (resistant to drought) and one of the most spectacular of all trees. \$1.50 prepaid.

Liquidamber—(Deciduous) Tree growing to 60 feet. Symmetrical habit with maple-like lustrous leaves assuming a deep crimson color in autumn. Free from insects and diseases. 4-5 feet. \$1.50 each. Smaller size \$1.00. Prepaid.

SPECIAL COLLECTION

Special collection of above varieties one each \$1.75 prepaid. Value purchased separately, \$2.25. Five varieties included in collection.

"Lacinatus"

New Shasta Hybrid. A very beautiful new lacinated daisy. Large 4-inch flowers that carry a large number of petals, the ends of which are finely cut. Plants are vigorous, growing to 3 feet in height and bloom over a long period. Excellent cut flower. The best of its type ever grown. Divisions from original plant 50c each; \$3.00 per 12. Not less than 12 at this rate.

"Sun-Ray" Shasta—Flowers 5 inches in diameter. Larger than Lacinatus and of similar form except the bottom row of petals are flat. A very beautiful new form of Shasta hybrid. 50c each; \$3.00 per doz. One of my personal favorites.

"Gigantea"

(See Above Photo)

The largest flowered Shasta daisy I have ever grown. Blooms well over 6 inches in diameter produced over the entire season. Semi-double in form. Possesses great substance and the most outstanding keeper of all, when cut, keeping almost two weeks. Stems strong and erect. *Wonderful new variety.* 50c each; \$5.00 per dozen.

Stella Dawn

(The above picture is a reproduction from a painting)

A NEW INTRODUCTION SCARLET WISTERIA TREE

One of the most beautiful of all small deciduous trees from South Africa. Rarely exceeding six feet in height and in bloom practically all summer, the long weeping branches with fern-like foliage, are literally covered with drooping clusters of brilliant tango-red, pea-shaped blossoms. The clusters are similar to wisteria in shape, and average five inches in length. Very showy when in bloom. Perfectly hardy in any climate. An introduction that is both rare and beautiful. Small trees, 30-36 inch, \$1.50 each. Larger trees 3 to 4 feet high, \$2.00 each. All trees will bloom the first year. Prepaid. Flowers shaped like locust blooms. Plant in full sun and do not cultivate in summer. Good drainage.

Dwarf Evergreen Hedge

Euonymus microphylla—A dwarf variety with small dark green foliage. Fast grower and very hardy. Makes a fine dwarf hedge for edging purposes. Plant a foot apart for best results. Strong plants, 5 cents each or \$3.50 per 100. Prepaid.

New Dwarf Oleander. A dwarf type not exceeding 5 feet in height adapted to use in the small garden and for use as tub specimens for porch or patio use. Large flowers of salmon buff freely produced over entire summer. Leaves are half-size of ordinary varieties. Flowers single and self cleaning. One of the most unusual oleanders ever grown and should become very popular. \$1.00 each.

Hedera conglomerata "Ivy"—A dwarf shrub type ideal for rock gardens and pools. Beautiful foliage and extremely graceful in its growth. 50c each.

New Pyracantha Formosana Splendens

—A new form that is rapidly gaining popularity. The most showy of all Pyracanthas. Enormous clusters of bright holly-red berries. Height 6 feet. Very select new variety. 75c each. Not prepaid.

Stranvaesia Davidiana—Large evergreen shrub from West China. Has lustrous foliage with small white flowers in large clusters (3 to 4 inches in diameter), followed by scarlet berries in large heads. Has scarlet foliage in fall and winter. Very showy. Thrives in full sun. 75c. Not prepaid.

Viburnum Rhytidophyllum—Evergreen shrub grows to height of 7 feet. Leaves very large. Flowers white in clusters to 8 inches in diameter followed by red fruit. A very attractive hardy shrub. 75c each.

Evergreen Shrubs

Viburnum Odoratissimum—An attractive evergreen shrub for all or part shade. Enormous laurel-like foliage of a shiny green. White flowers in 4-inch panicles followed by red fruit during fall and winter. Height 6 feet. 75c each.

Japanese Evergreen Pear—A large evergreen shrub of rapid growth (6 feet). Foliage turns bright red to yellow and green in the fall. New growth in spring very vivid shining green. Beautiful in all seasons. \$1.50 each. Not prepaid.

Hedera helix arborescens—Bush English Ivy. A broad leaf evergreen with every appearance of Ivy in bush form but often having leaves twisted and contorted in an interesting manner. Does well in sun or shade. Grows to 3 feet in height. Very hardy and desirable. 4 to 6 inches at 50 cents. Prepaid.

Photinia Serrulata Nova—A sturdy evergreen shrub. Foliage changes during the year from pale green to red and bronze. Height 6 feet. 1-gallon cans 75c each. Not prepaid.

Osmanthus Aquifolium—Large evergreen shrub with holly-like foliage. Produces very fragrant white flowers in early spring. A highly decorative shrub. 75c each. Not prepaid.

New Everblooming Evergreen Shrub Rose "Sierra Snowstorm"

A very beautiful new variety being introduced for the first time. The bridal wreath-like branches are covered with masses of intensely fragrant single white flowers. Thornless and grows to 5 feet. Blooms all season until frost. Individual flowers about 2½ inches across. An extremely fine new plant destined to great popularity. \$1.25.

New Shrub Rose—Dr. E. M. Mills. A beautiful new hybrid of Rosa Hugonis possessing the same graceful habit of growth. Color is primrose and pink. Ideal for cutting purposes and for planting in front of tall evergreen shrubs. \$1.00 each prepaid.

Daphnes

Daphne Cneorum—Dwarf species for rock gardens. Needs afternoon shade and no cultivation. Attractive pink flowers in clusters in early spring. Very fragrant. Strong plants. 50c each.

Daphne odora marginata—Winter flowering hardy shrub for a shaded or partly shaded location. Pink flowers in clusters, very fragrant. Needs perfect drainage and no cultivation. 50 cents medium and 75 cents larger. Prepaid.

Flowering Deciduous Shrubs

Giant Fragrant Lilac—Flowers produced in masses on terminal racemes. Latter sometimes over 30 inches long. Single lavender flowers. Very fragrant and never fails to bloom each year. By far the finest of all lilac types for California conditions. Clusters of flowers about 4 inches in diameter at base tapering to a point at tip. Height 8 feet. Large \$1.00 each.

Japanese Flowering Quince—New colors in this old favorite. Unsurpassed for early bloom and long display of color. Scarlet 2 to 3 feet, \$1.00; Marmorata pink and white, 2 to 3 feet, \$1.00; Pure white, 2 to 3 feet, \$1.00; Coral salmon (new variety) 2 to 3 feet, \$1.00.

Clerodendron fallax—**Glory Bower** or Cashmere Bouquet. A robust growing, all summer flowering shrub producing large hydrangea like heads of flowers over the entire summer. Flowers deep rose pink very fragrant. One of the best plants for flowering in shady places. Strong roots, \$1.00 each. Prepaid.

Clerodendron Fragens—(Glory Bower) Shrub 5 feet high, producing over the entire summer double flowers in dense clusters 3 inches wide. Fragrance unsurpassed, spicy. Can be used admirably in corsages. \$1.00 each. Delicate pink.

Ceratostigma—Dwarf shrub (30 inch height) completely covered during the summer with vivid rich blue flowers. One of the most beautiful flowering shrubs known. Plant in part shade or full sun. 25c each. Prepaid.

Dwarf Pomegranate—Beautiful border plant in bloom all summer. Flowers followed by red fruits 1½ inches in diameter. Fine for planting in front of other shrubs in groups of 3 to give color. The plants do not exceed 15 inches in height. Plant 14 inches apart for hedge use. Blooming size plants 25c each. 3 year old at 50c each.

Calycanthus florida—(Spice Bush or Sweet Shrub.) A very hardy deciduous shrub producing in late spring very double dark red flowers that have the fragrance of strawberries. Does well in either full sun or all shade. Foliage large and attractive. 3 to 4 feet, 75 cents each; 4 to 5 feet, \$1.00. Prepaid.

Crotalaria Agatiflora—Canary Bird Shrub A large shrub becoming a perennial in colder climates. Not recommended for temperatures lower than 20° Fahr. Enormous clusters of racemes to 24 inches long of large chartreuse or greenish gold flowers produced in the fall of the year. A magnificent flowering shrub. \$1.00 each.

NEW CORAL SHRUB

(Illustrated in Color Above)

Handsome shrub blooming throughout the summer months. Creates a sensation when in bloom. Flowers are borne in huge panicles ranging from 2-2½ feet long and about 8 inches across. Color is scarlet enhanced by a center zone of jet black. Grows to height of about 6 feet. Very graceful. One of the most beautiful and spectacular of all shrubs. Withstands temperatures as low as 10 degrees above zero. Strong roots for \$1.00. An excellent plant for a tub in the eastern states.

Forsythia spectabilis—Hardest of all Forsythia. Profuse bloomer excellent for marginal or group planting. Showiest of all varieties. Rich yellow flowers. 3 to 4 feet at \$1.00; 2 to 3 feet at 75 cents. Prepaid.

Philadelphus "Virginal"—Semi-double flowers. Pure white very fragrant. Blooms larger than any other variety. Blooms intermittently all summer. 2 to 3 feet, 75 cents. Prepaid.

Red Barberry—Foliage rich bronzy red similar to the red-leaved Japanese Maple. Foliage becomes more brilliant and gorgeous throughout summer. Covered in winter with brilliant scarlet berries that remain throughout the winter. Vigorous two year plants. 75c each. Prepaid. Grows 2½ to 3 feet high. Extra select size for \$1.00 each.

Crataegus Coccinoides—(Scarlet Hawthorn) Shrubs 5 to 8 feet high. Flowers 1 inch in diameter in clusters followed by red berries in the fall. A beautiful shrub. 50c each.

Evergreen Shrubs with Showy Red Berries

Aucuba Laurifolius—Beautiful new selected variety. A perfect shrub for shady location. Height 4 feet. Deep lustrous green foliage with leaves about 8 inches long. Produces in winter large clusters of bright red berries. Individual berries ½ to ¾ inch long. \$1.00 each. Not prepaid.

Aucuba (Gold Dust Plant)—Leaves lustrous and covered with gold spots. Fine for shade; rapid grower. 75c each. Not prepaid.

Rare Oriental Spring Blooming Magnolias

(See Above Photo)

Among the most beautiful flowering trees in the world. These deciduous magnolias bloom in the spring before the foliage appears. Most of them are perfectly hardy throughout the United States.

Magnolia macrophylla—A round headed tree to 25 feet. Young growth wooly. Leaves very large oval to oblong from 18 inches to 3 feet in length. Flowering with unfolding of leaves, flowers cup shaped. Creamy white very fragrant 10 to 12 inches across, petals purplish at base. Petals reflexed. Rose colored fruit in fall. A most unusual tree and very striking in its beauty. \$2.00 each. Prepaid.

Magnolia Kobus—A fast growing tree to 30 feet. Leaves 6 inches long. Flowering before leaves. Flowers 5 inches in diameter lily shaped white petals 6 to 9. A very beautiful deciduous flowering tree. Flowers fragrant, 30 to 36 inches high. \$1.50.

Magnolia Rustica Rubra—New introduction to America. Extra large cup shaped flowers of dark reddish purple. Small tree. \$2.00 each. Prepaid.

A Hardy Flowering Eucalyptus

Eucalyptus Rosea—A very beautiful deep pink flowering variety growing to height of 30 feet. Recommended for valley conditions because of ability to withstand temperatures as low as 15 degrees Fahrenheit without damage. \$1.00 each in gallon cans. 3 feet. Not prepaid. Flowers produced in large clusters.

Orchid Tree

Bauhinia Purpurea—"Orchid Tree." Small evergreen tree producing in greatest profusion flowers from 3 to 5 inches across. Colors vary from light to rich purple shaded with many tones. Should be planted in a southern exposure for best results. Strong young plants. Prepaid. 75c each.

Scarlet Oak

Quercus Rubra—Red Oak. Beautiful stately tree assuming rich autumn color. 50c each. Small trees 4-5 feet, \$1.75 each.

Magnolia Liliflora—Lily Magnolia. Flowers, 4 to 5 inches long—purple outside and lavender within. Blooms remain cupped similar to a tulip in form. 24-30 inch, at \$1.00. Very hardy.

Magnolia Stellata—(Star Magnolia)—Small, spreading tree that blooms very early. Very fragrant pinkish white flowers that are 3 inches in diameter. These flower masses are most beautiful on this very rare Chinese magnolia. 15 to 18 inches. \$1.00 prepaid.

Magnolia Stellata Rosea—A very rare form of the above. Flowers shaded rose. 24 inches, at \$3.00 each.

Magnolia Soulangeana Alexandrina—Small tree with large 8 inch blooms of deepest rose. \$1.00 each, prepaid.

Magnolia Glauca—Sweet Bay—A small evergreen tree. Flowers 3 inches in diameter appearing with the leaves. Very fragrant. 3-foot trees \$2.25 each.

Magnolia Lennei—Large flower, attaining diameter of 8 inches. Petals broad and rounded. Color—outside deep crimson and inside nearly white. Unusually fragrant. Blooms ten days later than Soulangeana. Leaves 12 inches long and 8 inches wide. Plant in full sun or partial shade. 12 inches to 15 inches in height. \$2.00 each prepaid.

Magnolia Soulangeana Nigra—Pyramidal and very attractive tree (medium size). Very fragrant. Seven-inch flowers of dark purple that blooms recurrently from March to the end of the summer. \$1.00 each, prepaid.

Tulip Tree

Liriodendron tulipifera (Tulip Tree)—A columnar or broadly pyramidal tree to 100 feet high. Leaves broadly oval or saddle shaped, tip blunt and deeply notched. Flowers showy tulip or lily like 2½ inches broad, white with an orange band at the base. A magnificent shade tree or lawn specimen 4 to 5 ft, \$1.75. Prepaid.

Ceanothus Impressus—A newly discovered species of this wonderful family. Small leaves of deep green handsomely marked with stippled leather appearance. Flowers of deep blue. One of the most attractive evergreens and certain to become very popular. \$1.50 Gal cans (not prepaid); 2½ inch potted 8-12 inch high @ 50c.

Evergreen Flowering Shrubs

Cistus Purpureus—An excellent summer flowering evergreen shrub producing over several months mallow-pink ruffled flowers with centers of dark red. Prefers a semi-dry location with good drainage. 75c each.

Hypericum Henryii—A splendid shrub for partial shade growing to 4 feet in height producing its 2 inch plums of golden yellow through out the entire summer. Very hardy and one of the best of all sub-shrubs. 75 cents gallon cans. Not prepaid. 15 to 24 inches.

RARE FLOWERING BROOM

Cytissus purpureus—A dwarf shrub growing to 18 inches and bearing attractive orchid flowers. New and decidedly different among brooms. 4 to 6 inches at 25 cents. Prepaid.

Dianthus Gigantea—Evergreen shrub (5 feet) producing over many months, lilac pink flowers of true Dianthus form. A very rare species and highly recommended, excellent for cutting. 50c each.

Cytissus Newreyensis—A selected form of the Paradise Broom. Enormous flowers 1 inch in diameter in red and yellow. Evergreen shrub to 5 feet. 75c each.

Oleanders—Large fine bushy specimens in deep pink or red. 4 to 5 feet balled \$1.50 each. 10 or more \$1.25 each, not prepaid.

Ceanothus Jepseni—One of the most beautiful of all dwarf evergreen flowering shrubs. Produces in spring very rich deep purple flowers in masses. Foliage unusually attractive, bright deep green. Form similar to that of holly. Plant in full sun in semi-dry location. \$1.00 each.

Leptospermum Rubra—A very unusual new shrub. Maximum height 5 feet. Completely covered in spring with ½-inch blossoms of a rich ruby red color. An unusually attractive evergreen. Branches arching and graceful. 15 to 18 inch established in gallon cans, \$1.00, not prepaid;

Gardenia "Mystery"—A selected form of the Cape Jasmine flowers much larger and adapted to outdoor culture. Easily grown, flowering all summer. By far the best of all gardenias for garden use. 15-18 inches gal. cans at \$1.00. Balled 18-24 inch at \$2.50. Not prepaid.

Carpenteria California—A very attractive native evergreen shrub, 6 feet high. Flowers pure white about 2½ inches across with yellow anthers produced in large terminal clusters. Orange-blossom fragrance. One of California's most beautiful shrubs. 50c each; larger at 75c each.

Teucrium chamaedrys—A beautiful evergreen rock plant. Reaches a height of 12 inches and is a bouquet of pink bloom all summer. Extremely hardy, holding its bright glossy green color in coldest weather. Foliage fragrant and will add beauty wherever low blossoming plants are desired. Without peer as a rockery or border plant. Drought resistant. Shear after blossoming. 6 to 8 inches at 25 cents.

Berberis Darwinii—A splendid dwarf shrub to 30 inches; flowers of pure gold, produced over many months. Foliage holly like and highly colored in winter. Balled 8-10 inches at \$1.00.

Malus Eleyii

(See Above Photo)

A new and startling hybrid. Branchy and fast growing trees. Foliage in early spring a brilliant red that gradually turns to bronze. Reddest of all crabapples. Single dark red blooms; very prolific and produces masses of bright red fruits about the size of large cherries. Very novel and highly ornamental. Large trees 4-6 feet @ \$2.00 each. 36-inch trees for \$1.00 each.

NOTE—The beauty and colorfulness of this tree over a long season cannot be overestimated. It produces masses of dark velvety red flowers followed by darkest red foliage that it retains until quite late in the season. It is covered for months of the fall by scarlet apples in clusters reminding one of bunches of ripe cherries.

Malus Aidenhamensis—A new type recently imported from England. Very similar to Malus Eleyi except that the flowers are more double. 30 to 36 inch trees. \$1.75 each. 36 to 48 inch \$2.00 each prepaid.

Flowering Crab—Betchel's double pink like small double roses. Beautiful. 3 to 4 feet, branched, \$1.25. Prepaid.

New Cotoneaster Apiculata—(Cranberry Contoneaster). Semi-prostrate growth. Berries extremely large (1½ inch long and ½ inch wide, in great profusion) and brilliant red in color. Perfectly hardy in the east. The most striking of all dwarf berried shrubs. 3 feet in height. 75c each.

Cotoneaster Divaricata—Deciduous shrub with pink flowers. Flowers followed in fall and winter by bright red fruits @ inch long. Very handsome shrub producing quantities of red berries for winter display. \$1.00 prepaid. 3-4 feet.

Cotoneaster Bullata—Shrub to six feet high. A very beautiful new cotoneaster bearing very large clusters of red berries. Foliage unusually beautiful. Highly recommended. 75c each. Hardy.

NEW GENERIC HYBRID

Fatshedera—A very unusual hybrid between an English Ivy and an Aralia (small tree) Large beautiful leaves that are colored in the winter months. A marvelous climber for pillars. Highly recommended. 15" plants well rooted @ \$1.50 each.

Malus Arnoldiania

(See Above Photo)

Flowering Crabapple. Shrub about 5 ft. in height. Long weeping branches resembling a Spirea Van Houttii. Flowers in masses. Buds are bright rose red opening to a light pink shade. The effect of two colors on the bush is very beautiful. This is one of the rarest of all flowering crabapples and is highly recommended. Specimens 4-5 ft. in height. \$2.50 each. Blooms first year. Prepaid. Smaller size for \$1.50 each.

New Dwarf Red Lantana—Bright red in color. A selected form. The brightest red of them all. Young plants from pots for spring delivery only. 25c each; \$2.50 per 12. Does not exceed 28 inches in height.

See page 16 for Rare and Unusual Fruits.

Evergreen Red Berried Shrubs

Cotoneaster Parneyi

A beautiful new evergreen producing very large clusters of a brilliant red, comparable to a California Holly in brightness. Individual clusters 3 inches or more in diameter. Color very apparent from November till April. Foliage dark olive green. Grows 6 feet high with graceful branches that weep with the weight of the fruit. The most attractive of all the Cotoneasters. Imported from the Royal Botanical Gardens of Scotland. Well established in gallon cans. 75c each. Not prepaid; medium sized plants, 50c each in gallon cans; balled 30-36" at \$1.50. Not Prepaid.

RARE FLOWERING SHRUB

Franklinia alatamaha (Gordonia)—Rare fall blooming shrub with erect branches. Leaves 5 to 7 inches long, bright crimson in the late fall. Flowers white cup shaped, 3½ inches wide. Grows to 15 feet. 12 to 15 inches \$1.50. Deciduous. Prepaid.

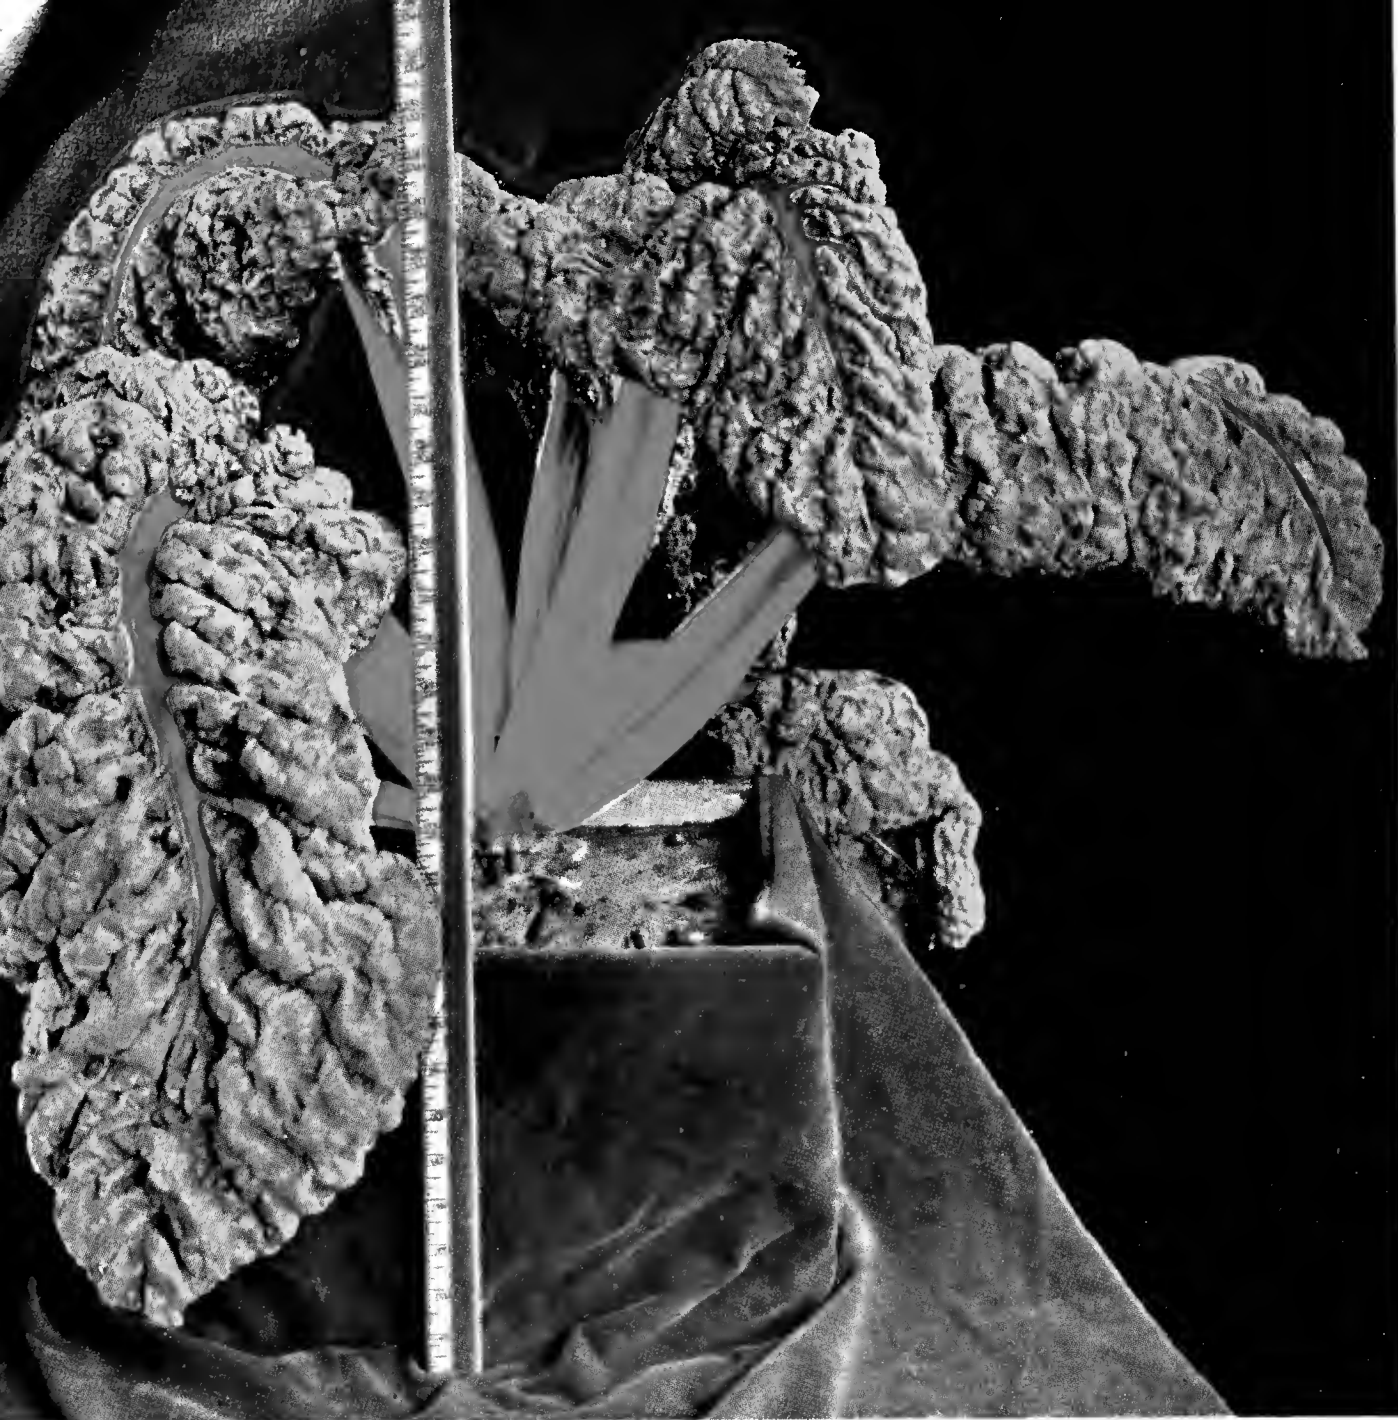

New Sweet Corn "Abundance"

New Sweet Corn "Abundance"—This new sweet corn was first offered to the public in 1930. Reports from various sections throughout the country are very enthusiastic in its praise. After selecting and inbreeding the familiar Golden Bantam sweet corn for many years, the variety "Abundance" was produced. It is fully twice as productive as its parent, bearing 14-16 rows of kernels to each ear. The kernels are unusually large, and cobs are small. It is an early variety, and can be grown successfully where other varieties fail. 25c packet; 75c per pound; 10 pound lots at 50c per pound.

FREE BLOOMING NEW CLIMBING ROSES OF NOTE

Climbing "Condessa De Sastago"—A climbing sport of the famous bush variety. A wonderful combination of vermillion and old gold. \$1.00 each.

Climbing Dainty Bess. Large beautiful orchid pink flowers with wine-red colored stamens. Single flowers. A wonderful grower and free bloomer. @ 75c each.

WM. H. HENDERSON'S NEW "CRIMSON GIANT" CHARD

A cross between the sweet sugar beet and Swiss chard. The leaves are as deeply crimped and pitted as a Savory cabbage. Nothing in the garden can be as easily raised and no other vegetable produces such a large and continuous supply of delicious and healthful succulent food.

Very beautiful and highly ornamental in the garden. Visitors to my gardens are enthusiastic in praise of its value as an ornamental plant. It is more delicious than the beet garden spinach. The leaves of this new "Crimson Giant" are of a rich dark green color, often 24 inches long and are crisp and tender. The leaf stalks are also very edible, and should be cooked with the leaves. The stalks are rich crimson in color, and average 2 feet in length. The plant reminds one of a well-grown rhubarb. The color is retained if cooked over a quick fire about twenty minutes, 50c per packet; \$2.50 an ounce.

NEW FRUITS

New Nectarine "California Gold"—A Hybrid between a Muir Peach and a white Nectarine. Possesses rich yellow flesh and a flavor unequalled by any other variety of stone fruit. Has firm flesh, but berry juicy. Perfectly smooth skin that is crimson blushed yellow. I recommend it as a new fruit possessing unusual qualities. Not as tart as most nectarines, but much sweeter. Young trees one-year stock \$1.50 each. Stand shipping better than the ordinary nectarine due to the firmness of its flesh.

Chinese Dwarf Lemon—A unique variety not exceeding 7 feet. Produces enormous quantities of fine well-flavored fruit. Excellent where space is at a premium. 50c. Balled plants 18-24" at \$2.00. Not prepaid.

New Figs

"New Miracle Fig"—A splendid new fruit producing a very heavy crop the first summer after planting. The figs are luscious and very sweet. It has been known to produce 24-36 fruits the first year from a cutting so the rooted plants that I offer will produce many more the first season. Fruits are large (1½" thick and 2½" long.) Ideal for the small family orchard and of excellent quality. Be sure and try this as we know you will be satisfied. 18-24 inch trees at 60c each; 30-36 inch trees at \$1.00 each.

White Hardy Hibiscus

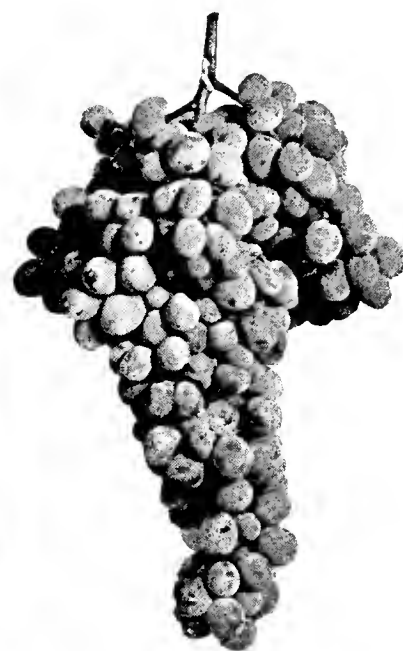

Single White Althea—A very large flowered form producing 3½" pure white semi-ruffled flowers over a long season. (June-October.) Absolutely hardy and a very fine plant. 30-36 inch at \$1.50 each.

W. H. Henderson's New Rhubarb "Giant Hybrid"

—Largest stalks and leaves of any known variety. Possesses a rich berry flavor and is a great improvement over older varieties. Sweetest of all rhubarbs; requires but half the amount of sugar generally used in cooking other varieties. Stalks 1½ inch thick and 2-3 feet long. Divisions 75c each.

New Asparagus "Quality"

—All growers are unanimous in their praise for this tender deliciously flavored, productive asparagus. By all means the finest variety ever offered for home gardeners. Pkt., 25c; ounce, 75c.

SEEDLESS MUSCATS

Announcing New Grape Varieties—After many years of hybridization and selection, requiring the testing of thousands of hybrids my efforts to develop a seedless grape possessing the flavor of the muscat have been successful. (All stock reserved for propagation). Announcement of introduction will be made as soon as sufficient stock is available for **large distribution**.

No. 28—Medium large berries—firm flesh, ripening 10 days earlier than Thompson's seedless. Rich muscat flavor. Bunches well set; wide shoulders; good shipper. Absolutely seedless. Clear yellow berries. **Not for sale in 1939.**

No. 23—Strong distinct muscat flavor with firm flesh. Seedless medium sized bunches. Bears 2 distinct crops. Very early, 10 days earlier than Thompson seedless. **Not for sale in 1939.**

No. 210—Berries very large, 1¾ inches long; looks exactly like a girdled Thompson only 3 times larger. Flavor very fine. Should make an excellent home grape or table grape. Long loose bunches. Flesh firm. 1 or 2 seeds per berry. Bunches very long. Mid-season bearer. Very firm flesh. Yellowish when ripe. Very beautiful bunches. \$1.00 each.

NEW ROSES FOR 1938-39

New Baby Rose "Snow White"—One of the most unusual roses ever grown. Producing miniature perfect flowers with buds about 1½ to 2 inches long. Very double flowers with 32 to 36 petals. Buds long tapering and pointed similar to Lulu in form but much more double. Flowers possesses a most unusual lemon fragrance. A sport of the famous Talisman rose. A perfect flower produced over entire summer. \$2.00 each.

New Everblooming Bush Belle of Portugal—(Wm. H. Henderson's Originations) A distinct new sport from the well-known climber producing over the entire rose season. The flowers are borne singly on long stems, frequently 30 inches long. Color is a soft rose-pink shaded with salmon. Has the same fragrance as its parent. As vigorous as the President Hoover. \$1.00 each.

Miss Barbara—Bush polyantha. Ever-blooming habit. Flowers and buds similar in form to Cecile Bruner. Color coral-red shaded yellow. \$1.00.

Scarlet Bedder—Beautiful long pointed buds on long stems. Very prolific. 75c each.

NEW BUSH ROSES

Alice Harding—Beautiful new never-fading yellow variety. Very hardy and a masterpiece. Borne singly upon long stems. \$2.00 each.

Alezane—Bud urn shaped, large reddish brown opening to sorrel, unfurling from sorrel to rich apricot. Vigorous. Dark green foliage. A striking novelty. \$1.25 each.

McGredy's Triumph—Large pointed bud cerise over shadowed orange opens to brilliant pink and cerise overlaid amber toning to a wide yellow center. Vigorous. \$1.50 each.

Princess Von Orange—A dazzling new color in climbing roses, branches literally covered with masses of brilliant orange scarlet flowers. A climbing Glori Mundi. \$1.00 each.

"Mald of Gold"—A remarkable sport of the famous climbing Golden Emblem. Color is richer and plant more vigorous, and will stand up under heat better than its parent. \$1.00 each, prepaid.

Ronsard—A new type of bedding rose of most unusual coloring. Bud is yellow but gradually the edges of petals curl back and show deep scarlet red inside. Medium sized flowers produced in great quantities throughout season. One of very few hybrid roses containing Rosa bicolor blood. Blooms like a hybrid tea. \$1.50 each.

Mary Hart—A marvelous new rose. One of the most outstanding of all red roses. It is an improved Talisman. \$1.00 each. (Red Talisman).

See page 18 for Tree Roses.

See page 15 for New Splendid Ever-blooming Climbing Roses.

Countess Vandal—Long buds with rich blend of pink, copper and gold, produced on long stiff stems. \$1.00 each.

Matador—Large full well-formed scarlet crimson with darker reverse. Very fragrant and vigorous. Splendid new dark red. \$1.25 each.

Victorla Harrington—Pointed buds of dark red opening to splendidly formed flowers of non-fading velvety dark red. Color is held until petals fall. Spicy and intense fragrance. Strong grower. 75c each.

Ville de Paris—Lasting sun flower yellow; deeper at center and base. Flowers well-shaped; double buds and flowers. 75c each.

Red Hoover—An intensified sport of President Hoover rose. Red shades predominating. 75c each.

Blarney—A climbing Irish Charm. Long tapering buds of blush pink toned with golden apricot. Very beautiful. \$1.00 each.

Etolle de Holland (Climbing)—A climbing sport of one of the best dark red bush roses. Very fine. 75c each.

Eclipse—A splendid heat resiting yellow bush rose. Buds very beautiful and produced on long stems. \$1.50 each.

Max Krause—Large high centered flowers Very double and golden yellow. Unusually beautiful variety. 75c each.

Cl. E. P. Thom.—Rated as one of the best yellow climbing roses. Color a pure yellow and very double. Profuse bloomer. 75c each.

Burbank's "Corona" Rose—A vigorous climbing polyantha producing an abundance of appleblossom pink flowers with lighter centers in enormous clusters.

This rose occupied a conspicuous place on Luther Burbank's home for many years and was a great favorite of his. \$1 each prepaid.

BUSH ROSES

White Killarney—Large white and intensely fragrant, each 50c.

Mev. G. A. Van Rossem—Buds are yellow veined with brownish-orange. Flowers fully double. 50c each.

Condessa de Sastago—Copper and yellow. Richest colored rose ever produced. 75c.

Florence Izzard—Pure canary yellow; free-bloomer; very beautiful. 75c each.

Victory—Wonderfully large flowers; long pointed buds. Long stems. Crimson and scarlet. 75c each.

E. G. Hill—Large lasting scarlet, shading deeper as they develop. 50c each.

F. J. Looymans—Large last full cup shaped flowers of Indian yellow. 50c each.

Lady Margaret Stewart—Large deep yellow flushed orange red. 50c each.

ROSE SPECIALS

All 50c varieties will be supplied at 5 for \$1.00. All other varieties are priced net. California customers add 3% for State Sales Tax.

Mrs. John Bell—Wonderfully formed buds, salmon pink. 75c each.

Lula—Beautifully formed buds of coral rose. Best formed of all bud roses. 50c.

Mme. Paul Oilvary—Coppery salmon; long well-shaped buds. 75c each.

Mrs. Sam McGrady—Very attractive; coppery orange flushed red. 75c each.

President Hoover—Medium, orange shaded cerise. Fine stems. Perfect buds. 50c.

Talisman—Vigorous upright; rich golden yellow and scarlet combination. 50c each.

Wilhelm Kordes—Deep golden yellow with copper and red tints. Beautiful. 50c each.

Irish Charm—Buds especially beautiful, long and tapering, blush pink, toned apricot. 75c each.

Western Gold—A clear yellow Talisman. Attractive variety. 50c each.

Wm. F. Dreer—The most beautiful of all apricot and pink combinations, fine buds 50c each.

POLYANTHAS OR "BABY" ROSES

Cecile Brunner—Dainty clear pink with yellow center. 50c each.

Tip-Top—Dainty flowers Cecil Brunner shaped; yellow and white tipped rose. 50c.

Chattillon Rose—Bush polyantha. Bright cherry crimson color; borne in enormous clusters producing entire season; splendid for masses, beds or borders. 50c each.

Gloria Mundi—Fine Polyantha of lasting orange scarlet. 50c each.

CLIMBERS

Belle of Portugal—Evergreen; unexcelled climber; light salmon-pink blooms. 50c.

Climbing Golden Emblem—Same rich yellow as bush variety. 75c each.

Climbing Talisman—Climbing sport of new multi-colored bush variety. Wonderful. 75c each.

Climbing President Hoover—Similar to bush in color, very vigorous. 75c each.

French Hybrid Tea—Climber. Color darkest of all red roses; deep scarlet overlaid and tipped black. Fine form. Has the appearance of a full double camellia bloom. Fragrance wonderful wine-like aroma. Unlike any other rose. A splendid fall bloomer. \$1.00 each.

Climbing Dame E. Helen—Rose pink. 75c each.

Climbing Lord Charlemont—Velvet red. Unusually beautiful. 75c each.

Mermald—Climber. Disease resistant, everblooming rose. Single rose of primrose yellow. 75c each. Large flowers.

"Rainbow Rose"—A now rare old favorite. Large flowers of soft rose striped with deeper rose. An unusual color combination that is hard to describe. An occasional petal is pure deep rose. \$1.00 each.

ALL ROSES PREPAID

Flowering Trees

Burbank's Prunus "Thundercloud"—Leaves are dark maroon in color, measure 6 inches long, and are held throughout the entire season. In color it is not equalled by any other tree. Bright autumn coloring from March until November. Grows about same size as an average plum tree. Very striking. 36-inch trees \$1.00 each, prepaid.

Prunus Blieriana—Best of all flowering plums. Deep rose pink flowers; semi-double. Blooms over long season. Showy foliage of dark green tinged with bronze. 4 to 5 feet in height. \$1.00 each. Prepaid.

Laburnum Vessi—"Golden Chain" tree. 30 feet. Spring blooming tree with long wisteria-like clusters. (to 20 inches) of golden yellow flowers. A magnificent flowering tree. \$2.50 each. 8-10 feet. Not prepaid. Plant in sun; very hardy. 4-6 feet @ \$1.25.

Koelruteria paniculata—"Golden Rain Tree". A small tree with compound foliage producing in early summer enormous panicles of golden yellow flowers, frequently 3 feet in length. Seed pods in fall resemble Japanese Lanterns in form. Very hardy. Trees 30 to 36 inches in height, 75 cents each. 4 to 6 feet, \$1.50 each. Prepaid.

Hawthorn "Paul's Scarlet"—The best of all flowering hawthorn varieties. A medium sized tree to 20 feet. Too well known to need a description. 5 to 6 feet, 2 year branched \$2.00. Not prepaid. 4-5 feet whips, \$1.00. Prepaid.

Crateagus cordata "Washington Hawthorn"—A small tree to 15 feet. Large white flowers in masses in the spring, followed in late summer and fall by large clusters of Pyracantha like berries of deep red. Foliage assumes wonderful autumnal tints of yellow-gold bronze and red. A beautiful tree. 4 to 5 feet, \$1.75. Prepaid.

Tamarix—Summer blooming type. Feathery foliage. Blooms throughout the entire summer producing quantities of lilac-pink flowers resembling Lily of the Valley. Very rapidly growing tree and succeeding well with little or no care. \$1.00.

Oak Leaved Hydrangea

Hydrangea Quercifolia (Oak Leaved Hydrangea)—Shrub to 6 feet high. Produces in spring enormous panicles 6 inches wide. 10 to 12 inches long of cream-yellow flowers. Foliage large and attractive, turns yellow and scarlet in the fall. Will stand full sun. One of the finest of all flowering shrubs. \$1.25 each. Very hardy. Prepaid.

TREE ROSES

Sam McGredy (copper and salmon) \$2.00 each
Pres. Hoover (multi-colored rose-salmon and cerise) 2.00 "
Tallman (scarlet and gold) 2.00 "
E. G. Hill (deep red, large fld.) 2.00 "
Golden Emblem (fine yellow) 2.00 "
Etiole de Holland (fine red) 2.00 "
Ville de Paris (yellow) 2.00 "
Dainty Bess (orchid pink) 2.00 "
Above Not Prepaid.

FLOWERING TREES Henderson's New Hybrid

New Japanese Red Bud—A most unusual red bud. Produces in early spring, branches laden with very vivid red blossoms. Enormous clusters giving the effect of great plumes. Selected roots from the original tree. \$2.50 each.

Red Bud (Japanese)—Handsome small tree or shrub from Japan. Grown for its showy reddish pink blossoms, produced in earlier spring before the leaves appear. Very striking plant growing with little care after established. Young trees, 75c each. Flowers much larger and more showy than our native species.

New Crepe Myrtle

Henderson's New Crepe Myrtle "True Red"—After testing many hundreds of hybrids over a period of many years, I offer the finest I have found. Produces clusters measuring 9 inches broad by 10 inches long of a rich rose red. A very spectacular small flowering tree. \$1.00 each.

Flowering Evergreen Trees in Blue

Henderson's Hybrid-California Evergreen Lilac—Hybrid form. A beautiful tree or large shrub that is covered throughout early spring with enormous clusters of sky-blue flowers. Clusters at times measure 14 inches in diameter, and 18 inches long. Well established in gallon cans, \$1.00 each. Very rapid grower. Not prepaid.

Selected Blue Ceonothus—Richest blue evergreen lilac. Blooms throughout summer months. Very showy. Thrives well in hot dry locations. One of our most beautiful flowering native shrubs. \$1.00 each. (gal. cans). Not prepaid.

Evergreen Trees

Magnolia Grandiflora—A selected form of the southern evergreen magnolia flowering while quite young. A splendid evergreen tree. 30-36 inch trees. \$1.50 each. Not prepaid.

Rapid Growing Camellias

Camellia Sasanqua Rosea—Single 3-inch flowers of a beautiful rose shade. Fragrant. A free flowering type, and more easily grown than the common varieties. Blooms in late October and November. 50c each.

Camellia Sasanqua—Double white fragrant flowers. 50c each.

We are constantly adding to our Camellia collection of varieties and are in contact with leading growers throughout the United States.

Burbank Tomato—Fruit crimson red; medium size with thick solid meat. It is an unusually heavy and continuous bearer. This tomato has one highly convenient quality in that the skin peels freely from the rich firm flesh. The finest tomato in quality. Pkts., 20c; 3 for 50c; \$1.00 per ounce. Earliest of all tomatoes.

CAMELLIAS

These beautiful flowers are deserving of more attention from home gardeners. They require a position protected from extreme cold. Preferably an eastern exposure with afternoon shade. They will repay a generous application of leaf mold or peat moss mixed well with the soil before planting. Cottonseed meal is an excellent fertilizer. One of the prime requisites in the culture of Camellias is to remember that absolutely no cultivation or stirring of the soil should be done at any time. Camellias are among the world's most beautiful flowering evergreens. Varieties offered here are among the finest.

New Camellias 1939-40

Alba Plena—Full double flower. Pure white and wax like in appearance. Very regular. Free blooming. \$2.00 each.

Monarch—Deep pink flowers of enormous size with many clusters of stamens and petals inside of large outer petals. \$1.00 each.

Ellsabeth (Tutonia)—Very double pure white petals crinkled at end. Formal shaped blooms. 75 cents.

Napoleon D'Italie—Medium sized bloom double rose red with very dark almost blackish stripes. \$1.00.

Prince Eugene Napoleon (Pope Pious IX)—Good sized very double scarlet flowers of early to mid season. \$1.00.

Single Red—Large sized single red with extra large foliage. \$1.00.

Jarvis Red—Deep blood red semi-double flowers with golden stamens. Dark green foliage. \$1.00.

Pink Perfection—Too well known to need describing. Flesh pink perfect double flowers. 50 and 75 cents each.

Rosita—The strongest and thriftiest grower of all Camellias with rose-pink flowers 3 inches across. The petals are arranged symmetrically. 75c and \$1.25 each.

Alba Plena Fimbriata—A form of alba plena with same habit of growth. Flowers very double and pure white in color. Edges of petals are laciniated. Price upon application.

Camellia Amabilis—A perfect ruffled single wax-like flower with conspicuous stamens of golden yellow. One of the world's most lovely pure white camellias. 8-10 inch size in gallon cans at \$1.00 each.

Col. Firey—Deepest crimson. Perfect symmetrical flowers. One of the two best reds in commerce today. 12-15 inch in gallon cans. \$3.00 each.

Francine—An improved Chandlerii producing large pure rose blooms of Chandlerii form. A very large flowering variety. 18-24 inch at \$3.00 each.

Covina—The most prolific flowering of all camellias. Also blooms longer than any other variety. Flowers when plant is young. Splendid variety for beginners. Medium size at 75c each. Large size 20-30 inch at \$1.75. Color is deep rose almost red.

Mme. Jannoch—A perfectly formed camellai with large flowers. Resembles a water lily with anthers showing. Fast grower and certainly an outstanding camellia. 20-30 inch at \$2.00.

NEW CARNATIONS

(W. H. Henderson's New Hybrids)

APRICOT QUEEN—Clear orange salmon (new) 50c each.

NEW YELLOW—Clear lemon yellow (new) 25c each—\$1.50 per dozen.

PURITAN—Largest pure white grown (new) 25c each—\$1.50 per dozen.

Great advancements have been made in the carnation and we offer below the very best in commerce today. Carnations need full sun and should be disbudded to obtain maximum size. They should be pinched back upon receipt of plant to insure good branches. Heavy pruning once a year is recommended to keep plants neat and tidy in appearance.

"Pharaoh" A wonderful new carnation. Petals bright orange with tips of each petal fringed with red. There are no pencilings. Blooms measure 3½-4½ inches across, and are full and well formed. Plant robust and stems long and strong. The greatest advance in carnation development offered today. 60c each.

"Spectrum Supreme" Large vigorous red carnation of top quality. Long stems @ 25c.

"Luxury" A new bright red variety. Excellent variety. Best red in commerce today. @ 25c.

"Snow White" A new giant carnation with extra large flowers 4-5" across. Blooms full and high centered. Show quality. Free bloomer. The finest white I have ever seen. 50c.

"Giant Liddle" A salmon sport of Liddle with larger flower with deeper and more vigorous than parent. Good producer of show quality blooms. 35c each.

"Woburn" The leading crimson carnation. Highest ranking quality. Blooms large and full with slightly fringed petals. @ 25c each

"Snow" Azalea

Azalea ledifolia "Snow Azalea"—A hardy large flowered 3½ pure white azalea. Evergreen. Blooms over a long season and highly recommended. 12-15 inches at \$2.25; 10-12 inches at \$1.75 each. Balled plants; not prepaid.

Irish Yew

"Irish Yew" *Taxus Baccata fastigata*—Admirable for formal gardens. A rich green column throughout the entire year. It is covered with red berries in the winter. 3-4 ft. balled at \$3.00 each. 4½-5 ft. at \$5.00 each. Not prepaid.

Franquette Walnuts—A fine type of walnut especially where late spring frosts occur. It comes into flower and foliage after frost danger is past. Soft shell and of very good quality. 6-8 feet \$1.75.

Esplanter Fruit Trees

Gravenstein apples and Bohemian sweet cherry and J. H. Hale peaches. Rapidly becoming popular for use against walls and where space is at a premium. \$4.00 each.

New Spiral Willow

An unusual new sport of the weeping willow. It possesses same graceful habit. Each leaf is curled or rolled in a fantastic fashion resembling in form a Ramshorn. Wonderful to plant near a pool for a specimen tree. \$1.00 each.

Fast Growing Shade Trees

Modesto Ash—The West's newest high class shade tree. Great advance in beauty and hardiness. Grows like a perfect Arizona Ash but has no seeds and develops faster. Disease free and extremely drought resistant. Foliage hard and glossy on both sides. Fine Foliage hard and glossy on both sides. Finest shade tree known. 5-6 ft. at \$1.50; 3-4 ft. at \$1.30.

Roblnla Decalsiana—Showy flowering locust. Producing very long clusters about 15-18 inches in length. Beautiful rose-pink. Splendid shade tree growing very rapidly to a height of 40 feet. Grafted specimens \$1.50 and \$2.00 each. These are among the most beautiful of spring flowering trees. Drought resistant.

Silver Maple—Large tree of very rapid growth. Foliage bright green and silvery on under side. More rapid grower than the sycamore. Excellent shade tree for interior valleys. Large trees, 8 feet high, \$1.25 each; 6 feet, \$1.00 each.

California Sycamore—A very large tree that should be more widely used. More resistant to insects and more beautiful foliage than its European cousin. 4-5 ft. at \$1.00 each.

Butternut (*Juglans cinerea*)—A beautiful tree with enormous foliage. Makes an excellent shade tree. Producing quantities of nuts with white meats of excellent flavor. Strong young trees, 75 cents. Prepaid.

NEW DOGWOOD

Cornus Officinalis—Small tree growing to a height of 15 feet. Beautiful new species imported from China. Has yellow flowers followed by large attractive scarlet fruit. Unusually beautiful foliage—very heavily veined turning gorgeous scarlet in the fall. \$1.00 each prepaid.

FLOWERING DOGWOODS

Dogwood Pacific (*Cornus nuttalli*)—Very large flowered. Native Dogwood. Nursery grown trees are easier to transplant. Flowers 5 to 6 inch diameter. One of the world's most beautiful flowering trees. 8 to 10 feet at \$3.50; smaller sizes not available this year. Not prepaid.

Cornus Florida Rubra—(Flowering Dogwood)—Unusually beautiful, 4-inch deep pink flowering Dogwood. Flowering in early spring and presenting a gorgeous display of color. Prefers partial shade, preferably in afternoon. Needs plenty of water and no cultivation. Soil free from alkali and containing leaf mold recommended. Grafted plants 18 to 24 inches, at \$2.00, 3 to 4 feet, at \$3.50 each.

Hardy Evergreen Azalea

Azalea hinodegira—Most easily grown of all evergreen Azaleas producing bright red blossoms in such profusion as to cover entire plant. Blooms last longer in good condition on plant than any other type of Azalea. Grows to 3 feet. Larger, balled 12 to 15" \$2.00. Not Prepaid.

New Azaleas

Azalea macrantha "The Rose"—A new dwarf form not exceeding 24 inches in height. Semi-double flowers 1½ to 2 inches across. Buds resemble perfect rose buds when half open. Color coral rose. One of the most remarkable of all Azaleas. Blooms from December intermittently to the first of June. 6 inch pot plant, \$1.25 with flower and buds. Prepaid.

Azalea Altacirensis—Beautiful selected form. Flowers golden yellow with orange centers. Clusters are large reminding one of a yellow rhododendron. Fragrant. Easily grown in part shade. Foliage is yellow and scarlet in winter. Augments the beauty of any garden. 18 to 24 inches, \$2.25; 12 inches, \$1.50. Not prepaid.

Azalea Mollis—Orange, apricot and yellow flowers borne in great profusion. Very fragrant. Medium size shrubs preferring partial shade. 75c each with bloom buds. Prepaid. Balled, 12-15" @ \$1.25. Not prepaid.

Azalea Schlippenbach-Royal Azalea—Beautiful rose pink flowers, 3 inches in diameter. Largest flower of this species. Plant in partial shade. (10 to 12 inches branched). \$1.50 each. Not prepaid.

Azalea Calendulacea—The flame azalea of the south. Perfectly hardy and easily grown. Plant in partial shade in moist soil. The most beautiful of all American azaleas. Color orange salmon. Height 12 to 15 inches, \$1.25. Not prepaid.

The above Azaleas are among the world's most beautiful azaleas and should be more freely used in landscape work.

Cornus Florida—A pure white form of the above, 18 to 24 inches at 75c each.

Cornus capitata—A Himalayan species very hardy in Western America. The only evergreen Dogwood. Producing 3 inch flowers in early summer of pure white. A rapid grower and highly desirable. Needs partial shade or full sun. No cultivation and good drainage. Has large attractive red fruits in fall. Gallon cans 75 cents. Not Prepaid.

Cornus florida plena—Double flowering dogwood. Showiest of all white dogwoods. Blooms when very young. Large showy semi-double white blooms with outer row of petals often more than three inches across; inner rows arrayed in whorls. 18 to 24 inches at \$2.25; 2 to 3 feet at \$3.50. Prepaid.

Henderson's Hybrid Giant Hibiscus

(Field View Above)

This new hibiscus can be grown anywhere; absolutely hardy. The flowers are enormous in size measuring from six to ten inches across, and when established will bloom from May to November. In winter the plants die, but the roots sprout again each spring, being perennial in nature. Healthy and vigorous and will thrive in any soil. Plant with shrubbery. Colors range from snow white through all shades of pink, red orchid, scarlet and maroon. Mixed colors 50c each root; \$5.00 per 12. Selected colors, \$1.00 each. These grow about 3½ to 4½ feet high.

New Hibiscus for 1939-40

The following named varieties of hibiscus are offered as the most beautiful in my entire collection. Over twenty thousand hybrids have been grown and tested during a period of ten years and these are offered as the very finest.

Giant Old Rose—One of the largest flowered varieties in our collection. 10 to 12 inch blooms of soft old rose throughout. Early bloomer. \$1.00.

"Raven"—Easily the most beautiful. Deep maroon semi-ruffled petals of heavy substance. The darkest of all reds so far produced. Flowers 7 to 8 inches in diameter. \$2.50 each.

Mahogany—Semi-fluted petals of mahogany red throughout. Beautiful flowers to 7 inches in diameter. \$1.00.

New Ruffled Raspberry Rose—A most beautiful ruffled like crepe. Richest raspberry rose with small eye of burgundy red. Wonderfully beautiful. \$2.00. each.

New Improved Fresno—A glorified Fresno possessing richer color throughout. Individual petals over 5 inches across. Petals imbricated. Flowers measure 10 to 12 inches across. \$2.50 each. Largest flowered of all my hybrids.

Note

We will have on exhibition at the Golden Gate Exposition in San Francisco plants in bloom of this new type of Hibiscus and many other new and outstanding creations.

Giant White—Enormous pure white with small rose colored center. Petals faintly tipped rose. The largest near pure white in our collection. \$2.00 each.

Hibiscus "Formal White"—Heavy petal-ed, pure white semi-ruffled round formed flower with deep red center. \$1.00 each.

"Crimson Wonder"—A magnificent flower over 10 inches in diameter. Is an intense crimson color. \$1.50 each.

"Satan"—The nearest approach to a true velvet red. Flowers 8 inches in diameter. Its beauty is entranced by shadings of deeper maroon. \$2.50 each.

Beautiful New Clown Hibiscus

"Clown" (Illustrated in color on front cover)—Very difficult to describe. The blooms have the appearance of having been hand painted. Color is flesh pink over ivory white. The ends of petals are blotched claret rose for at least ½ of their length. The later color bleeds through the lighter zone to a deep red center \$2.00 each. 9 inch blooms.

"Fresno"—Nine inch flowers of satin pink overlaid with silver. An indescribably beautiful variety. Individual petals 4 inches broad. Possesses a Burgundy red center. \$1.00 each. The finest self-colored pink ever grown.

New Ruffled White Hibiscus—Enormous 10 inch blooms beautifully ruffled petals of pure white with a center of dark red. The most beautiful and sensational white hibiscus ever grown. \$2.50 each.

"Improved Radiation"—A larger and more vividly colored "Radiation." Individual petals 5½ inches broad. Flowers 11 inches across. Red veins more prominent and a more richly colored center. \$2.00.

"Wm. H. Henderson"—Very new and unusual color crushed raspberry red with very distinct stripes of deep red with rich dark center. Blooms are 7 inches in diameter. Individual petals 3½ inches broad. One of the most floriferous varieties. Not one of the largest, but one of the loveliest ever produced. \$1.50 each.

"Mammoth White"—Eleven inch flowers purest white faintly striped with soft rose. The center is rich velvety red. One of the most beautiful in entire collection. \$1.50 each.

"Silver Rose"—Richest raspberry rose overlaid silver and striped with deeper rose. Center of the very richest dark red. Flowers 9 to 10 inches in diameter. \$2.50 each.

"Radiation"—Wonderful 9-inch flowers of satin pink striped with many lines of rose-red radiating from a center of richest velvet red. Individual petals 4¾ inches broad. \$1.00 each.

"Poinsettia"—Very large 10-inch flowers of gorgeous cerise red, self colored variety. Prolific bloomer and one of the most brilliant ever shown. \$1.00 each.

CULTURAL DIRECTIONS

Plant in full sun—No cultivation. Cover eyes on roots about one inch deep and stake. They will not sprout until weather becomes settled and warm in spring. These Hibiscus require good drainage and moderate water supply.

During the past year we have made extensive trips throughout the state of California in an effort to personally contact our many friends and customers. We shall endeavor this coming year to meet even more of you this way. By these meetings it has been possible to perhaps offer a few suggestions and to be of a little assistance with your garden problems. Feel free to write us at any time if you have any garden questions.

We hold exhibits during the year in Southern California. This enables our many friends in this area to see the newer creations first-hand. We will be glad to add the names of those interested to our mailing list to receive notices. These shows are held at 399 South Euclid Ave. in Pasadena.

The Hibiscus has been received throughout the nation with unbounded enthusiasm. They were written up by Sunset Magazine in December, 1936; Garden Quarterly, 1936 and by many other publications during the past year.

Wm. H. Henderson's New Giant Hybrid Hibiscus

The Hibiscus offered were developed from a hardy longlived branch of the Hibiscus family. They are resistant to extreme cold and can be grown in the colder sections of the U. S. They require no winter protection of any kind. Only the simplest culture is needed. I can recommend them very highly for long and colorful display in the garden. All plants bloom well the first year planted.

Testimonial from a satisfied customer: "Just a line to tell you of the Hibiscus root I purchased from you this Spring. To date, Sept. 1st, I have picked 215 blooms from the bush. Each bloom measured from 8 to 10 inches in diameter. The root was planted March 1st.—Mrs. E. T. S."

IRIS SPECIES

"American Iris " Beautiful Species and Hybrids

Louisiana Violpurpurea (Small)—Deep claret purple with Gold center. Hardy in the north. 3 feet. Plant July-October.

Louisiana Vinicolor (Small)—Deep wine purple with gold center. Hardy. 3 feet.

Louisiana Gigantea Coerulea (Small)—Bright violet blue. Flowers marked with yellow center. 4 feet. Hardy.

Louisiana Fulva—Terra cotta or brick red. 36 inches in height.

The above species are among the most beautifully colored iris ever seen. They are not excelled in color by any other type of iris.

I am at present interested in hybridizing various beardless types of iris native to Louisiana. For grace of form and richness of color these are unsurpassed. They have a great future, and when better known will be even more popular than our best German iris.

SPECIAL COLLECTION of above Louisiana types in mixed colors selected hybrids, \$2.50 per dozen.

The Orchid Iris

Iris Japonica—Gigantea

(See Above)

Gigantea—A beautiful orchid-like iris, imported from the Orient. Flowers medium size, white with yellow throat heavily dotted with ring of bright blue dots. Each petal is heavily fringed or laciniated. Grows to 3 feet in height, with beautifully varnished foliage. Valuable for shady or half shady locations. Plant carries as many as 40 flowers on a single flower spike. The most orchid-like iris in flower, shape and color. Likes moisture. 50c each; 3 for \$1.00; 12 for \$3.00.

BEAUTIFUL LILIES

For part shade there is no more graceful and beautiful group of plants in the world.

Lilium Elegans—Grows to 2 feet in height. Flowers erect, and nearly 6 inches across. Orange-red spotted with black. A splendid showy lily adapted to the foreground of the border or rock garden. \$1.00 per dozen or 10c each.

Lilium Cernum—Lilac pink in color with spots of wine; very fragrant. Height 12-18 inches. Blooms in June. Plant 3 inches deep. 30c each; \$3.00 per dozen.

Lilium Henryii—(The orange speciosum) Large orange yellow flowers on stems 4-6 ft. high. Plant 6 inches deep in shade or partial shade. One of the most beautiful of all lilies and very easily grown. 20c each, \$2.00 per dozen.

Lilium Philippinense Formosanum—(Pure white variety)—Snow white fragrant flowers up to 6 inches long on 48 inch stems. Plant 5-6 inches deep. They prefer partial shade. One of the most easily grown of all lilies. 15c each; \$1.50 for 12.

Lilium Regale (Royal Lily)—4-5 feet high. Large flowers with diameter of 6 inches. They are pure white suffused with primrose yellow in throat and outside of petals suffused with purple. Very easily grown type and exceedingly beautiful. \$2.00 per dozen or 20c each.

Lilium Sulphureum—Sulphur yellow flowers that blend with any other flower in the garden. Blooms late-August and September. Large trumpet shaped flowers and they are fragrant. Height 4-5 feet. Plant 8 inches deep and surround bulbs with coarse sand. \$1.00 each.

Lilium Tenuifolium (Siberian Coral Lily)—Grows to a height of 18-24 inches. Flowers are 2 inches wide and the most intense and brilliant lacquer red. Tips of the petals recurved. Admirable for rock gardens. 10c each or \$1.00 per dozen.

Lilium Tigrinum (Tiger Lily)—Grows 4-5 feet high. Large 5 inch flowers of a beautiful orange red color with black dots. Tips of petals recurved. \$1.00 per dozen; 10c each.

Graceful Easily Grown Cut Flower

Alstromeria Aurantiaca (Pruvian Lily)—This needs good drainage, a good supply of moisture and some shade for best results. The large flowers are produced in clusters on stem terminals. These are in bloom throughout the summer months. Admirable for cutting purposes. Flowers yellow spotted with brown and tipped with green. 20c each; \$1.75 per dozen.

GERBERAS

Transvaal Daisies—New Hybrids. Plant in full sun or part shade. Bloom all summer. This strain was secured from the largest collection of Gerberas in the world. Colors include coral, scarlet, crimson, cream, yellow and many other combinations. Two sizes of plants; large 30c each, \$3.00 per dozen; medium \$1.50 per 12.

Rose Locust (Robinia Hispida)

(See Above Photo)

Small tree growing to 15 feet. Produces a perfect mass of orchid pink clusters about 5 inches in length in early spring. These resemble Wisteria clusters. It flowers continually till July. Very striking and quite rare. Grafted trees for \$2.00. Prepaid.

Pink Flowering Acacia—One of the most graceful of deciduous trees. Hardy as far north as Washington, D. C. The long finely cut fern-like leaves are often 2-feet in length. Blooms most of the summer. Flowers lavender pink and form in large terminal heads. Trees grow 30 feet. Vigorous young trees. \$1.00 each.

Two Rare Flowering Crab-apples

Malus Ming Shing (Star of Heaven)—Weeping red flowering crabapple. Small tree or shrub. Color of flowers is velvet red creating a scarlet sheen when sun shines on the tree. Very Oriental in its splendor. Trees 4 feet in height. \$2.00. Rare.

Malus Hopa—A beautiful flowering crab apple. Large rose colored blossoms produced over entire tree. Stems of blooms may be cut well over 3 feet in length. Yellow apples in fall cover the entire tree. 4 to 6 feet, \$2.00. Prepaid.

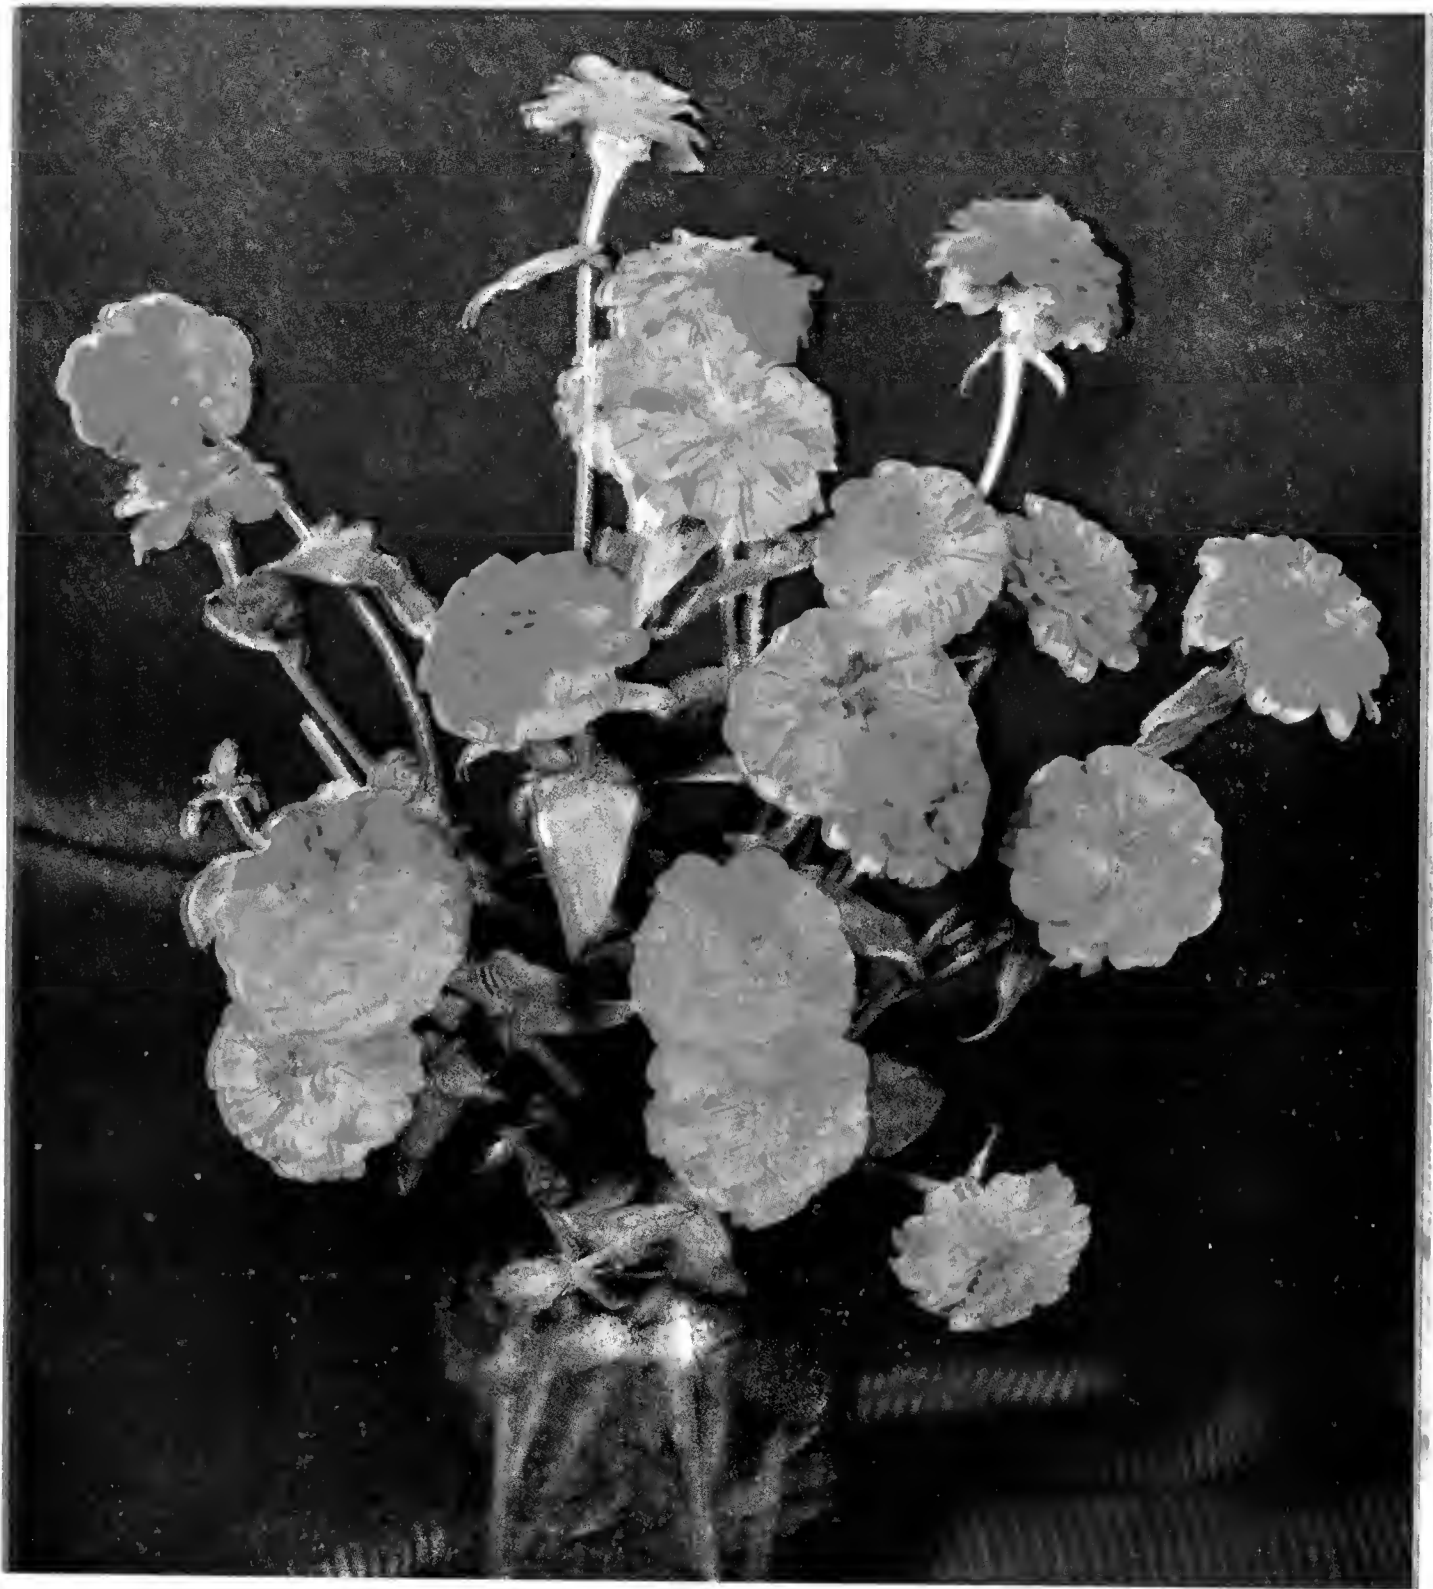

Henderson's

New Giant Single Pink Althea

New Giant Single Pink Althea—Excellent new variety with flowers fully 5 inches in diameter. Beautiful rose colored blooms. Prolific bloomer; produced from June until October. \$1.00 each.

Perennials

Hardy perennials comprise some of the most useful flowering plants for the border. Requiring a minimum of care and thriving with great vigor. Many have basal evergreen winter foliage which makes them unusually suited to places where both flowers and ground coverage are essential.

**Wm. H. Henderson's
NEW "FIESTA" ZINNIA**

A beautiful new creation, see page 8 for complete description.
